**Project Location:** 12th Street from Huron to St. Clair Avenue, and St. Clair Avenue from 12th Street to 11th Street, Renovo Borough, PA

#### **Description of the Proposed Project** [24 CFR 50.12 & 58.32; 40 CFR 1508.25]:

Clinton Couty on behalf of the Renovo Borough Water Authority has allocated Community Development Block Grant (CDBG) entitlement funds, FFY 2022, C000086340, and FFY 2023, C000089805, in the amounts of \$44,485.30 and \$145,739 respectively to the RBWA 12th Street Rehabilitation Project at 12th Street from Huron to St. Clair Avenue, and St. Clair Avenue from 12th Street to 11th Street in Renovo Borough, Clinton County, Pennsylvania.

The proposed scope of work includes the replacement of approximately 711 linear feet of water main on 12th Street and on St. Clair Avenue from 12th Street to 11th Street. One new fire hydrant will be installed along with 9 new meter pits and service lines, 40 tons of 19-millimeter base and 9.5-millimeter wearing course on the roadway.

#### Statement of Purpose and Need for the Proposal [40 CFR 1508.9(b)]:

The purpose of this project is to replace part of the watermain on 12th street, install a fire hydrant, along with 9 new meter pits and service lines, and 40 tons of 19-millimeter base and 9.5 millimeter wearing course.

#### **Existing Conditions and Trends** [24 CFR 58.40(a)]:

Existing conditions

#### **Funding Information**

HUD Program 🛴	Funding Amount
CDBG Entitlement	\$44,485.30
CDBG Entitlement	\$145,739.00
	CDBG Entitlement

Estimated Total HUD Funded Amount: \$190,224.30

This project anticipates the use of funds or assistance from another Federal agency in addition to HUD in the form of (if applicable): \$ 0

Estimated Total Project Cost (HUD and non-HUD funds) [24 CFR 58.32(d)]: \$190,224.30

Historic Properties (includes archeology): The "circumstances requiring compliance" threshold is considered to be a determination by the RE, made in consultation with the SHPO/THPO (and ACHP if it has decided to participate in 36 CFR Part 800 required consultations), that the undertaking will have either No Adverse Effect or an Adverse Effect on properties/archaeological resources on or eligible for listing on the National Register of Historic Properties (NR) in the Area of Potential Effect for the proposed undertaking. Compliance is achieved by documenting implementation of procedures set forth at 36 CFR 800 et. seq. The phrase "no circumstances which require compliance" [as used in §58.34(a)(12)] shall apply only when the RE has: reached an adequately documented finding of "No Historic Properties Affected," in accordance with 36 CFR §800.4(d)(1); AND, received no objections within thirty (30) days from the SHPO's/THPO's (and the ACHP's if it has decided to participate in Part 800 required consultations) date of receipt of a formal consultation letter from the Responsible Entity transmitting that finding. For the definition of an "adequately documented finding," see 36 CFR §800.11(b) & (d. Determinations are based on a review of the NR, field observation, a check with other individuals or groups having the requisite expertise, and consultations with the SHPO required by 36 CFR Part 800.

<u>Floodplain Management</u>: The project is within or will impact on the 100-year floodplain identified by the FEMA Flood Hazard Boundary or Flood Insurance Rate Map. If no such maps have been published, the same finding is necessary by the grantee's Engineer or local Flood Control Agency. If the Project involves a critical Capital Fund (e.g. a fire station, a hospital, etc.), the 500-year flood plain applies. Initiate and complete reviews required by the HUD Procedures for the Implementation of Executive Order 11988", as set forth in 24 CFR Part 55 (Project may be approved if there is no practicable alternative outside the floodplain).

<u>Wetlands Protection</u>: The project is within, or will affect a wetland. This finding is based on review of Federal National Wetlands Inventory Maps unless more current information is available. Initiate and complete the Water Resources Council 8-step procedure (Project may be approved if there is no practicable alternative outside the wetland area).

<u>Coastal Zone Management (CZM)</u>: The project is within the area covered by a Federally-approved CZM Program. A consistency determination/permit from the State CZM agency or other relevant jurisdictional authority is required to document consistency.

Sole Source Aquifers and Safe Drinking Water: The project will occur in an area designated by EPA as a sole source aquifer. Contact US EPA Regional Office to confirm whether project meets the threshold for a formal EPA review. If it does, then a circumstance requiring compliance exists. Compliance is achieved by obtaining EPA's formal review and approval of the project.

<u>Farmland Protection Policy Act of 1981</u>: The project involves the conversion of farmland to non-agricultural use. Recipients can obtain assistance from the USDA Soil Conservation Service, in determining whether a proposed location or site meets the Act's definition of farmland. If the site meets the Act's definition, then the recipient must complete the review process as set forth in 7 CFR Part 658, "Farmland Protection Policy: Final Rule."

<u>Endangered Species</u>: The project will affect an endangered species of plants or animals, or an critical habitat. This finding is based on a review of the "Federally-Listed Endangered and Threatened Species" for the area in which the project is situated. Initiate and complete consultation with the U.S. Fish and Wildlife Service (FWS) as required under Section 7 of the Endangered Species Act.

<u>Wild and Scenic Rivers</u>: The project will have an effect on a river which is a component of the National Wild and Scenic Rivers System or is under consideration for inclusion in the System. This finding is based on information from and consultation with the Department of the Interior (DOI). Consult DOI Park Service for resolution assistance.

<u>Air Quality:</u> The project is within a non-attainment area for which EPA has approved the State Implementation Plan (SIP), and there are SIP controls for such a project. Consider compliance issues in the project decision. If issues are transportation-related, priority must be given to implementing those portions of the SIP to achieve and maintain national primary air quality standards. The Department of Environmental Protection responsible for SIP implementation should be consulted. Permits should be obtained as relevant.

Noise Abatement and Control (24 CFR Part 51B): The project involves noise sensitive uses [24 CFR Part 51.101(a)(3)], and the ambient noise level at the Project site is above 65 dB. This finding is based on the HUD Noise Assessment Guidelines (NAG) or other acoustical data. Require appropriate mitigation measures or justify deviation from the HUD standards.

#### COMPLIANCE THRESHOLD

page 2 of 2

<u>Hazardous Operations Explosive or Flammable in Nature (24 CFR Part 51C)</u>: The project is in the vicinity of hazardous operation involving explosive or flammable fuels or chemicals which exceed the standards and application of HUD Guidebook, "<u>Siting of HUD-Assisted Projects Near Hazardous Facilities</u>". Require appropriate mitigation measures as per the above-cited regulations. NOTE: 24 CFR Part 51C does not apply to projects involving the renovation only of existing commercial, industrial, institutional, or open space-recreational facilities.

Runway Clear Zones at Designated Commercial Service Airports and Clear Zones and Accident Potential Zones at Military Airfields (24 CFR Part 51D): The project is located in such zones and consists of activities as cited in 24 CFR Part 51D, Section 51.302. Comply with appropriate procedures and policies set forth in the above cited regulations.

Site Contamination\* [24 CFR part 58.5(i)(2)]: Based upon an evaluation of previous uses of the project site/structures involved and area in proximity\*\* to the site, a site inspection, and other current techniques by qualified professionals determined necessary by the RE, site contamination issues have been identified. Particular attention should be given to any proposed site on or in the general proximity to such areas as dumps, landfills, industrial sites or other locations that are creating problems, or are suspected of creating problems related to hazardous materials, contamination, toxic chemicals and gases, and radioactive substances. Since it is HUD policy that properties being proposed for use in HUD programs be free of contamination problems that could affect the health and safety of occupants, or conflict with the intended utilization of a project property, the RE must either require appropriate mitigation measures to assure a safe site, or require evidence from the project sponsor that appropriate mitigation measures have been implemented by qualified professionals, consistent with relevant Federal, State, and local laws and regulations, ensuring that the occupants of proposed sites will not be adversely affected by the type of hazards listed above.

- \* Excerpted from point III, page 56120, in the Supplementary Information section of amendment to 24 CFR Part 58, as published in the Federal Register, 9/29/03 (Volume 68, Number 188): "The policy set forth in Sec. 58.5(i)(2) requires due diligence in accordance with the language in that section, but is not intended to suggest any liability for damages caused by unknown or undiscovered hazards where an appropriate review has been performed. In addition, the policy that sites be free from hazardous materials, etc., does not require a complete absence of such materials, but only that the property be free of hazards where the hazard could affect the health and safety of occupants or conflict with the intended use of the property. The policy also does not prescribe any specific form of remediation, which may vary depending upon the nature of the hazard."
- \*\* HUD has left the definition of the term "proximity" as used in Sec. 58.5(i)(2), up to the Responsible Entity. As concerns certain Programs under which HUD is to perform environmental reviews (i.e. the HOPWA, SHOP, and Youthbuild Programs), proximity is discussed as the area within 3,000 feet of the project site.
- \*\*\* The Executive Order calls on Federal agencies, and in the case of HUD, units of general purpose government acting under an assumption of HUD's environmental review responsibility, to identify and address, to the extent practicable, disproportionately high adverse human health or environmental effects of their programs, policies and activities on minority and low income populations.

Document: stat.checklist.3.25.04 Revised 3/04

#### Compliance with 24 CFR 50.4, 58.5, and 58.6 Laws and Authorities

Record below the compliance or conformance determinations for each statute, executive order, or regulation. Provide credible, traceable, and supportive source documentation for each authority. Where applicable, complete the necessary reviews or consultations and obtain or note applicable permits of approvals. Clearly note citations, dates/names/titles of contacts, and page references. Attach additional documentation as appropriate.

Compliance Factors: Statutes, Executive Orders, and Regulations listed at 24 CFR §58.5 and §58.6	Are formal compliance steps or mitigation required?		Compliance determinations
STATUTES, EXECUTIVE ORDERS, AND REGU	LATIONS	LISTE	D AT 24 CFR 50.4 and 58.6
Airport Hazards  24 CFR Part 51 Subpart D		No ⊠	No airports located near project. Appendix H – Checklist and map
Coastal Barrier Resources  Coastal Barrier Resources Act, as amended by the Coastal Barrier Improvement Act of 1990 [16 USC 3501]		No ⊠	"Out" determination made.  Appendix B contains FIRM and Coastal Barrier Resources Map

#### Other Requirements (Section 58.6) Checklist

In addition to the duties under the laws and authorities specified in 58.5 for assumption by Responsible Entities (RE) under the laws cited in 58.1(b), RE must comply with the following requirements. Applicability of the following requirements does not trigger the certification and release of funds procedure under this Part or preclude exemption of an activity under 58.34 (a) (12) and/or the applicability of 58.35(b). However, the RE remains responsible for addressing the following requirements in its ERR and meeting these requirements, where applicable, regardless of whether the activity is exempt under 58.34 or Categorically Excluded under 58.35 (a) or (b).

(a) Federal Flood Insurance Purchase Requirements (do not apply to funds from Federal formula grants made to a State).

(1) Does the project involve acquisition or construction (including rehabilitation) in a community identified by the Federal Emergency Management Agency (FEMA) as having special flood hazard areas (100-year and 500-year floodplains)? Yes □ No ☑ If "Yes," go to (a)(2). If "No," go to Question (b).

(2) Is the project located in 100-year flood plain (500-year floodplain for "critical" Capital Funds\*)? Yes □ No □ If "Yes," go to (a) (3). If "No," go to Question (b).

condition on the environmental findings and recommendations for the project. If "No," project cannot be funded.
\*As defined in the U.S. Water Resources Council's Floodplain Management Guidelines for Implementing Executive Order 11988.

#### Flood Insurance Protection

<u>Duration of Flood Insurance Coverage</u>. The statutory period for flood insurance coverage may extend beyond project completion. For loans, loan insurance or guaranty, flood insurance coverage must be continued for the term of the loan. For grants and other non-loan forms of assistance, coverage must be continued for the life of the property, regardless of transfer of ownership of such property. <u>Section 582(c)</u> of the Community Development and Regulatory Improvement Act of 1994 mandates that "...The requirement of maintaining flood insurance shall apply during the life of the property, regardless of transfer of ownership of such property." (42 U.S.C. 5154a)

<u>Dollar Amount of Flood Insurance Coverage.</u> For loans, loan insurance or guaranty, the amount of flood insurance coverage need not exceed the outstanding principal balance of the loan. For grants and other forms of financial assistance, the amount of flood insurance coverage must be at least equal to the development or project cost (less estimated land cost) or to the maximum limit of coverage made available by the Act with respect to the particular type of building involved (SF-Single Family, OR-Other Residential, NR-Non Residential, or SB-Small Business), whichever is less. The development or project cost is the total cost for acquiring, constructing, reconstructing, repairing or improving the building. This cost covers both the Federally assisted and the non-Federally assisted portion of the cost, including any machinery, equipment, fixtures, and furnishings. If the Federal assistance includes any portion of the cost of any machinery, equipment, fixtures or furnishings, the <u>total</u> cost of such items must also be covered by flood insurance.

<u>Proof of Purchase.</u> The standard documentation for compliance with Section102 (a) is the <u>Policy Declarations</u> form issued by the National Flood Insurance Program or issued by any property insurance company offering coverage under the National Flood Insurance Program. The insured has its insurer automatically forward to the grantee in the same manner as to the insured, information copies of the <u>Policy Declarations</u> form for verification of compliance with the Act. Any financially assisted SFHA building lacking a current <u>Policy Declarations</u> form is in Noncompliance.

Grantee's Evidence of Compliance under the Certification. The grantee must maintain a complete and up-to-date listing of its on-file and current Policy Declarations for all financially assisted SFHA buildings. As a part of the listing, the grantee should identify any such assisted building for which a current Policy Declarations form is lacking and attach a copy of the written request made by the grantee to the owner to obtain a current Policy Declarations form.

# NOTICE TO PROSPECTIVE BUYERS OF PROPERTIES LOCATED IN RUNWAY CLEAR ZONES AND CLEAR ZONES/ACCIDENT POTENTIAL ZONES

(In accordance with 24 CFR Part 51, Section 51.303(a)(3), this notice must be given to anyone interested either in buying an existing HUD property, or using HUD assistance to buy an existing property that is located in either a Runway Clear Zone at a civil airport or a Clear Zone/Accident Potential Zone at a military installation.)
The property which you are interested in purchasing at is located in the Runway Clear Zone/Clear Zone/Accident Potential Zone for
Studies have shown that if an accident were to occur it is more likely to occur within the Runway Clear Zone/Clear Zone/Accident Potential Zone than in other areas around the airport/airfield. Please note that we are not discussing the chances that an accident will occur, only where one is most likely to occur.
You should also be aware that the airport/airfield operator may wish to purchase the property at some point in the future as part of a Runway Clear Zone/Clear Zone/Accident Potential Zone acquisition program. Such programs have been underway for many years at airports and airfields across the country. We cannot predict if or when this might happen since it is a function of many factors, particularly the availability of funds, but it is a possibility.
We wanted to bring this information to your attention. Your signature on the space below indicates that you are now aware that the property you are interested in is located in a Runway Clear Zone/Clear Zone/Accident Potential Zone.
Signature of prospective buyer  Date
N/A
Type or print name of prospective buyer
(This notice must be maintained as part of the file on this Capital Fund)

Environmental Assessment Factors [24 CFR 58.40; Ref. 40 CFR 1508.8 &1508.27] Recorded below is the qualitative and quantitative significance of the effects of the proposal on the character, features and resources of the project area. Each factor has been evaluated and documented, as appropriate and in proportion to its relevance to the proposed action. Verifiable source documentation has been provided and described in support of each determination, as appropriate. Credible, traceable and supportive source documentation for each authority has been provided. Where applicable, the necessary reviews or consultations have been completed and applicable permits of approvals have been obtained or noted. Citations, dates/names/titles of contacts, and page references are clear. Additional documentation is attached, as appropriate. All conditions, attenuation or mitigation measures have been clearly identified.

**Impact Codes**: Use an impact code from the following list to make the determination of impact for each factor.

- (1) Minor beneficial impact
- (3) Minor Adverse Impact May require mitigation
- (2) No impact anticipated
- (4) Significant or potentially significant impact requiring avoidance or modification which may require an Environmental Impact Statement

Environmental Assessment Factor	Impact Code	Impact Evaluation
LAND DEVELOPMENT		
Conformance with Plans / Compatible Land Use and Zoning / Scale and Urban Design	2	Consultation with Clinton County Planning
Soil Suitability/ Slope/ Erosion/ Drainage/ Storm Water Runoff	2	Consultation with Clinton County Conservation
Hazards and Nuisances including Site Safety and Noise	2	Consultation with Clinton County Planning, PA Department of Environmental Protection
Energy Consumption	2	No Impact
SOCIOECONOMIC		
Employment and Income Patterns	2	No Impact
Demographic Character Changes, Displacement	2	No Impact, no displacement.
COMMUNITY FACILITIES AND SERVICES		
Educational and Cultural Facilities	2	No Impact
Commercial Facilities	2	No Impact
Health Care and Social Services	2	No Impact
Solid Waste Disposal / Recycling	2	No Impact
Waste Water / Sanitary Sewers	2	No Impact
Water Supply	2	No Impact
Public Safety - Police, Fire and Emergency Medical	2	No Impact
Parks, Open Space and Recreation	2	No Impact
Transportation and Accessibility	2	No Impact
NATURAL FEATURES		
Unique Natural Features, Water Resources	2	PNDI-847509 - No known impact
Vegetation, Wildlife	2	PNDI-847509 - No known impact
Other Factors	2	None

Additional Studies Performed: No additional studies performed.

Field Inspection (Date and completed by): 6/25/2025 by Jamie Shrawder, Program Manager

#### List of Sources, Agencies and Persons Consulted [40 CFR 1508.9(b)]:

U.S. Army Corps of Engineers
Clinton County Historical Society
Pennsylvania Historical & Museum Commission
Clinton County Conservation District
Department of Environmental Protection
Pennsylvania Department of Transportation
Pennsylvania Emergency Management Agency
Federal Emergency Management Agency
Clinton County
Clinton County Planning
Pennsylvania Department of Community & Econo

Pennsylvania Department of Community & Economic Development

#### List of Permits Obtained:

Permits will be obtained as determined by results of the Environmental Review.

#### Public Outreach [24 CFR 50.23 & 58.43]:

Letters sent on: September 4, 2025, with 30-day comment period ending: October 6, 2025

Finding of No Significant Impact and Notice of Intent to Request Release of Funds published in Lock Haven Express on October 9, 2025.

#### **Cumulative Impact Analysis** [24 CFR 58.32]:

- 8 Step Floodplain Review completed eptember 23, 2025.
- Department of the Army authorization required for discharge of dredged and/or fill material into waters
  of the U.S., including jurisdictional wetlands.
- Historical properties –
- Endangered species PNDI-847509
- Erosion controls addressed by E&S Plan.

It has been determined that the RBWA 12th Stree Rehabilitation Project Project activities are in compliance with local and area planning and will have no adverse impact on the environment.

#### Alternatives [24 CFR 58.40(e); 40 CFR 1508.9]

Alternative would be to not replace the water main, install a fire hydrant, 9 new meter pits and service lines, 40 tons of 19-millimr base, and 9.5 millimeter wearing course on the roadway. - Option rejected.

#### No Action Alternative [24 CFR 58.40(e)]:

No Action would be to not rehabilitate the water main, install a fire hydrant, 9 new meter pits and service lines, 40 tons of 19-millimr base, and 9.5 millimeter wearing course on the roadway. - Option rejected.

#### **Summary of Findings and Conclusions:**

Upon consultation with local, state, and federal agencies, it has been determined that the RBWA 12th Stree Rehabilitation Project Project activities will not have an adverse impact on the surrounding environment.

The Environmental Review has been leveled as an Environmental Assessment 58.36 due to the project area increasing in size by more than 20 percent.

#### Mitigation Measures and Conditions [40 CFR 1505.2(c)]

Summarize below all mitigation measures adopted by the Responsible Entity to reduce, avoid, or eliminate adverse environmental impacts and to avoid non-compliance or non-conformance with the above-listed authorities and factors. These measures/conditions must be incorporated into project contracts, development agreements, and other relevant documents. The staff responsible for implementing and monitoring mitigation measures should be clearly identified in the mitigation plan.

Law, Authority, or Factor	Mitigation Measure
	No mitigation required.

#### **Determination:**

$\boxtimes$	Finding of No Significant Impact [24 CFR 58.406	(g)(1); 40 CFR 1508.27]
The	project will not result in a significant impact on the qualit	y of the human environment.

	Finding of Significant Impact [24 CFR 58.40(g)(2); 40 CFR 150	8.27]
The	roject may significantly affect the quality of the human environment.

#### Floodplain Management (CEST and EA)

Question 6, 8-Step Process

General Requirements	Legislation	Regulation
Executive Order 11988, Floodplain Management, requires Federal activities to avoid impacts to floodplains and to avoid direct and indirect support of floodplain development to the extent practicable.	Executive Order 11988	24 CFR 55
Reference		
https://www.hudexchange.info/e	nvironmental-review/floodpla	in-management

https	s://www.hudexchange.info/environmental-review/floodplain-management
1.	Does 24 CFR 55.12(c) exempt this project from compliance with HUD's floodplain management regulations in Part 55?  ☐ Yes  Provide the applicable citation at 24 CFR 55.12(c) here. If project is exempt under 55.12(c)(7) or (8), provide supporting documentation.
	<ul> <li>→ Based on the response, the review is in compliance with this section. Continue to the Worksheet Summary below.</li> <li>☑ No → Continue to Question 2.</li> </ul>
2.	Provide a FEMA/FIRM or ABFE map showing the site.  The Federal Emergency Management Agency (FEMA) designates floodplains. The FEMA Map Service Center provides this information in the form of FEMA Flood Insurance Rate Maps (FIRMs) or Advisory Base Flood Elevations (ABFEs). For projects in areas not mapped by FEMA, use the best available information to determine floodplain information. Include documentation, including a discussion of why this is the best available information for the site.
	<ul> <li>Does your project occur in a floodplain?</li> <li>□ No → Based on the response, the review is in compliance with this section. Continue to the Worksheet Summary below.</li> </ul>
	⊠ Yes
inform	Select the applicable floodplain using the FEMA map or the best available nation:  □ Floodway → Continue to Question 3, Floodways
	<ul> <li>□ Coastal High Hazard Area (V Zone) → Continue to Question 4, Coastal High Hazard Areas</li> <li>□ 500-year floodplain (B Zone or shaded X Zone) → Continue to Question 5, 500-year Floodplains</li> </ul>
	$\boxtimes$ 100-year floodplain (A Zone) $\rightarrow$ The 8-Step Process is required. Continue to

3.	Floodways Is this a functionally dependent use? □ Yes
	The 8-Step Process is required. Work with your HUD FEO to determine a way to satisfactorily continue with this project. Provide a completed 8-Step Process, including the early public notice and the final notice.  → Continue to Question 6, 8-Step Process
	□ No  Federal assistance may not be used at this location unless a 55.12(c) exception applies.  You must either choose an alternate site or cancel the project at this location.
4.	Coastal High Hazard Area Is this a critical action?  ☐ Yes
	Critical actions are prohibited in coastal high hazard areas. Federal assistance may not be used at this location. Unless the action is excepted at 24 CFR 55.12(c), you must either choose an alternate site or cancel the project.
	□ No  Does this action include construction that is not a functionally dependent use, existing construction (including improvements), or reconstruction following destruction caused by a disaster?
	☐ Yes, there is new construction.  New construction is prohibited in V Zones ((24 CFR 55.1(c)(3)).
	<ul> <li>No, this action concerns only a functionally dependent use, existing construction (including improvements), or reconstruction following destruction caused by a disaster.</li> <li>This construction must have met FEMA elevation and construction standards for a coastal high hazard area or other standards applicable at</li> </ul>
	the time of construction.  → Continue to Question 6, 8-Step Process
5.	500-year Floodplain Is this a critical action?  □ No → Based on the response, the review is in compliance with this section. Continue to the Worksheet Summary below.
	□Yes → Continue to Question 6, 8-Step Process
6.	<ul> <li>8-Step Process.</li> <li>Does the 8-Step Process apply? Select one of the following options:</li> <li></li></ul>

☐ 5-Step Process is applicable per 55.12(a)(1-3).  Provide documentation of 5-Step Process.
Select the applicable citation:
☐ 55.12(a)(1) HUD actions involving the disposition of HUD-acquired multifamily housing projects or "bulk sales" of HUD-acquired one- to four-family properties in communities that are in the Regular Program of the National Flood Insurance Program (NFIP) and in good standing (i.e., not suspended from program eligibility or placed on probation under 44 CFR 59.24).
□ 55.12(a)(2) HUD's actions under the National Housing Act (12 U.S.C. 1701) for the purchase or refinancing of existing multifamily housing projects, hospitals, nursing homes, assisted living facilities, board and care facilities, and intermediate care facilities, in communities that are in good standing under the NFIP.
<ul> <li>□ 55.12(a)(3) HUD's or the recipient's actions under any HUD program involving the repair, rehabilitation, modernization, weatherization, or improvement of existing multifamily housing projects, hospitals, nursing homes, assisted living facilities board and care facilities, intermediate care facilities, and one- to four-family properties, in communities that are in the Regular Program of the National Flood Insurance Program (NFIP) and are in good standing, provided that the number of units is not increased more than 20 percent, the action does not involve a conversion from nonresidential to residential land use, the action does not meet the thresholds for "substantial improvement" under § 55.2(b)(10), and the footprint of the structure and paved areas is not significantly increased.</li> <li>□ 55.12(a)(4) HUD's (or the recipient's) actions under any HUD program involving the repair, rehabilitation, modernization, weatherization, or improvement of existing nonresidential buildings and structures, in communities that are in the Regular Program of the NFIP and are in good standing, provided that the action does not meet the thresholds for "substantial improvement" under § 55.2(b)(10) and that the footprint of the structure and paved areas is not significantly increased.</li> <li>→ Continue to Question 7, Mitigation</li> </ul>
□ 8-Step Process is inapplicable per 55.12(b)(1-4).
<ul> <li>Select the applicable citation:</li> <li>□ 55.12(b)(1) HUD's mortgage insurance actions and other financial assistance for the purchasing, mortgaging or refinancing of existing one- to four-family properties in communities that are in the Regular Program of the National Flood Insurance Program (NFIP) and in good standing (i.e., not suspended from program eligibility or placed on probation under 44 CFR 59.24), where the action is not a critical action and the property is not located in a floodway or coastal high hazard area.</li> <li>□ 55.12(b)(2) Financial assistance for minor repairs or improvements on one- to four-family properties that do not meet the thresholds for "substantial improvement" under § 55.2(b)(10)</li> </ul>
☐ 55.12(b)(3) HUD actions involving the disposition of individual HUD-acquired, one-to four-family properties.
☐ 55.12(b)(4) HUD guarantees under the Loan Guarantee Recovery Fund Program (24 CFR part 573) of loans that refinance existing loans and mortgages, where any new construction or rehabilitation financed by the existing loan or mortgage has been completed prior to the filing of an application under the program, and the refinancing will not allow further construction or rehabilitation, nor result in any physical impacts or changes except for routine maintenance.

Worksheet Summary below.

- □ 55.12(b)(5) The approval of financial assistance to lease an existing structure located within the floodplain, but only if—
  - (i) The structure is located outside the floodway or Coastal High Hazard Area, and is in a community that is in the Regular Program of the NFIP and in good standing (i.e., not suspended from program eligibility or placed on probation under 44 CFR 59.24);
  - (ii) The project is not a critical action; and
  - (iii) The entire structure is or will be fully insured or insured to the maximum under the NFIP for at least the term of the lease.
- → Based on the response, the review is in compliance with this section. Continue to the Worksheet Summary below.

#### 7. Mitigation

For the project to be brought into compliance with this section, all adverse impacts must be mitigated. Explain in detail the exact measures that must be implemented to mitigate for the impact or effect, including the timeline for implementation.

- All areas of earth disturbance will be returned to their original condition.
- · Sedimentation controls will be implemented during project activities.
- The activity will conform to all applicable laws, regulations, and permits.
- Upon completion, the site will be returned to its natural contours

Which of the	following	mitigation/m	inimization	measures	have	been	identified	for
this project in	the 8-Ste	p or 5-Step Pi	rocess? Se	lect all that	apply	<b>/</b> .		

Permeable surfaces
Natural landscape enhancements that maintain or restore natural hydrology
Planting or restoring native plant species
Bioswales
Evapotranspiration
Stormwater capture and reuse
Green or vegetative roofs with drainage provisions
Natural Resources Conservation Service conservation easements or similar
easements
Floodproofing of structures
Elevating structures including freeboarding above the required base flood
elevations
Other

→ Based on the response, the review is in compliance with this section. Continue to the

#### Worksheet Summary

#### **Compliance Determination**

Provide a clear description of your determination and a synopsis of the information that it was based on, such as:

- Map panel numbers and dates
- Names of all consulted parties and relevant consultation dates
- · Names of plans or reports and relevant page numbers
- Any additional requirements specific to your region

FEMA Map No. 42035C0178D effective 9/26/2008

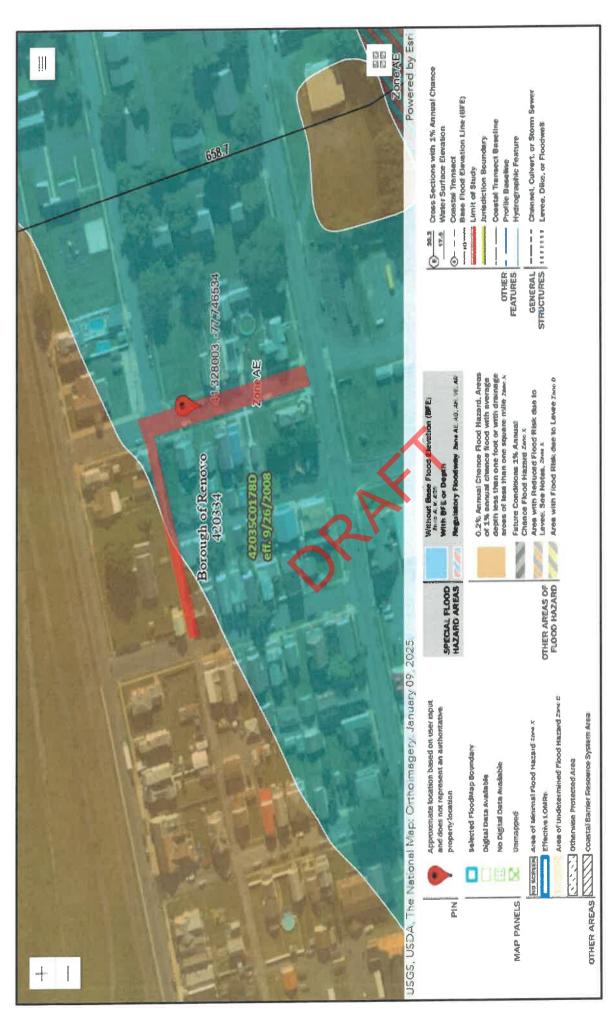

Consultation 9/4/2025 with:

- U.S. Army Corps of Engineers
- PEMA
- FEMA
- Clinton County Historical Society
- State Historic Preservation Office
- Clinton County Conservation
- PennDOT
- Renovo Borough
- Clinton County Planning
- Pennsylvania Department of Community and Economic Development

No additional requirements identified from consultations.

Are formal compliance steps or mitigation required?

□ No

Renovo Borough, Clinton County, PA

#### Flood Insurance (CEST and EA)

General requirements	Legislation	Regulation
Certain types of federal financial assistance may not be used in floodplains unless the community participates in National Flood Insurance Program and flood insurance is both obtained and maintained.	Flood Disaster Protection Act of 1973 as amended (42 USC 4001-4128)	24 CFR 50.4(b)(1) and 24 CFR 58.6(a) and (b); 24 CFR 55.1(b).
	Reference	
https://www.hudexchange.info/environmental-review/	flood-insurance	

- 1. Does this project involve financial assistance for construction, rehabilitation, or acquisition of a mobile home, building, or insurable personal property?
  - $\ensuremath{\boxtimes}$  No. This project does not require flood insurance or is excepted from flood insurance.
    - → Continue to the Worksheet Summary.
  - $\square$  Yes  $\rightarrow$  Continue to Question 2.
- 2. Provide a FEMA/FIRM map showing the site.

The Federal Emergency Management Agency (FEMA) designates floodplains. The <u>FEMA Map Service Center</u> provides this information in the form of FEMA Flood Insurance Rate Maps (FIRMs). For projects in areas not mapped by FEMA, use the best available information to determine floodplain information. Include documentation, including a discussion of why this is the best available information for the site. Provide FEMA/FIRM floodplain zone designation, panel number, and date within your documentation.

Is the structure, part of the structure, or insurable property located in a FEMA-designated Special Flood Hazard Area?

- $\square$  No  $\rightarrow$  Continue to the Worksheet Summary.
- $\square$  Yes  $\rightarrow$  Continue to Question 3.
- 3. Is the community participating in the National Flood Insurance Program or has less than one year passed since FEMA Notification of Special Flood Hazards?
  - □ Yes, the community is participating in the National Flood Insurance Program. For loans, loan insurance or loan guarantees, flood insurance coverage must be continued for the term of the loan. For grants and other non-loan forms of financial assistance, flood insurance coverage must be continued for the life of the building irrespective of the transfer of ownership. The amount of coverage must equal the total project cost or the maximum coverage limit of the National Flood Insurance Program, whichever is less

Provide a copy of the flood insurance policy declaration or a paid receipt for the current annual flood insurance premium and a copy of the application for flood insurance.

→ Continue to the Worksheet Summary.

Yes, less than one year has passed since FEMA Notification of Special Flood Hazards
If less than one year has passed since Notification of Special Flood Hazards, no flood
Insurance is required.
Continue to the 18/outshoot Common .

→ Continue to the Worksheet Summary.

□ No. The community is not participating, or its participation has been suspended. Federal assistance may not be used at this location. Cancel the project at this location.

Wetlands (CEST and EA)

General requirements	Legislation	Regulation
Executive Order 11990 discourages that direct or indirect support of new construction impacting wetlands wherever there is a practicable alternative. The Fish and Wildlife Service's National Wetlands Inventory can be used as a primary screening tool, but observed or known wetlands not indicated on NWI maps must also be processed. Off-site impacts that result in draining, impounding, or destroying wetlands must also be processed.	Executive Order 11990	24 CFR 55.20 can be used for general guidance regarding the 8 Step Process.
	Reference	es

1. Does this project involve new construction as defined in Executive Order 11990, expansion of a building's footprint, or ground disturbance?

The term "new construction" shall include draining, dredging, channelizing, filling, diking, impounding, and related activities and any structures or facilities begun or authorized after the effective date of the Order.

- No → Based on the response, the review is in compliance with this section.
  Continue to the Worksheet Summary below.
- ☐ Yes → Continue to Question 2.

# 2. Will the new construction or other ground disturbance impact an on- or off-site wetland?

The term "wetlands" means those areas that are inundated by surface or ground water with a frequency sufficient to support, and under normal circumstances does or would support, a prevalence of vegetative or aquatic life that requires saturated or seasonally saturated soil conditions for growth and reproduction. Wetlands generally include swamps, marshes, bogs, and similar areas such as sloughs, potholes, wet meadows, river overflows, mud flats, and natural ponds. Wetlands under E.O. 11990 include isolated and non-jurisdictional wetlands.

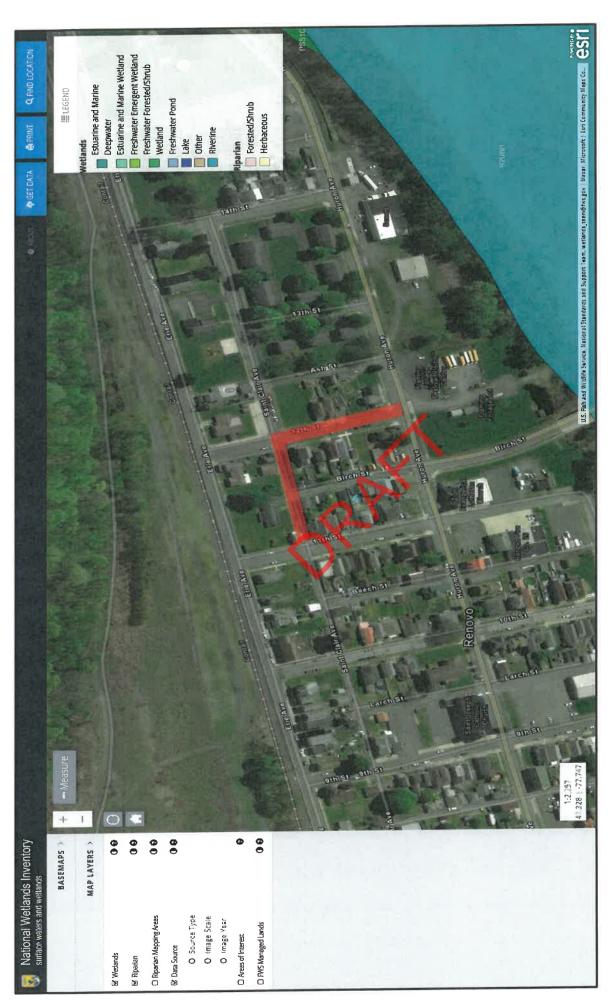

- □ No, a wetland will not be impacted in terms of E.O. 11990's definition of new construction.
  - → Based on the response, the review is in compliance with this section. Continue to the Worksheet Summary below. Provide a map or any other relevant documentation to explain your determination.
- ☐ Yes, there is a wetland that be impacted in terms of E.O. 11990's definition of new construction.
- → You must determine that there are no practicable alternatives to wetlands development by completing the 8-Step Process.

Provide a completed 8-Step Process as well as all documents used to make your determination, including a map. Be sure to include the early public notice and the final notice with your documentation.

Continue to Question 3.

⋈ No

3. For the project to be brought into compliance with this section, all adverse impacts must be mitigated. Explain in detail the exact measures that must be implemented to mitigate for the impact or effect, including the timeline for implementation.
Which of the following mitigation actions have been or will be taken? Select all that apply:    Permeable surfaces   Natural landscape enhancements that maintain or restore natural hydrology through infiltration   Native plant species   Bioswales   Evapotranspiration   Stormwater capture and reuse   Green or vegetative roofs with drainage provisions   Natural Resources Conservation Service conservation easements   Compensatory mitigation    Worksheet Summary   Compliance Determination   Provide a clear description of your determination and a synopsis of the information that it was based on, such as:   Map panel numbers and dates   Names of all consulted parties and relevant consultation dates   Names of plans or reports and relevant page numbers   Any additional requirements specific to your region
Wetlands map from <a href="https://www.fws.gov/wetlands/Data/Mapper.html">https://www.fws.gov/wetlands/Data/Mapper.html</a> FEMA Map No. 42035C0178D 9/26/2008  Consultation 9/4/2025 with:  U.S. Army Corps of Engineers  PEMA  FEMA  Clinton County Historical Society  State Historic Preservation Office  Clinton County Conservation  PennDOT  Renovo Borough  Clinton County Planning  Pennsylvania Department of Community and Economic Development  No additional requirements identified from consultations.
Are formal compliance steps or mitigation required?

Projects located in the following states must complete this form.

Alabama	Georgia	Massachusetts	New Jersey	Puerto Rico	Virgin Islands
Connecticut	Louisiana	Michigan	New York	Rhode Island	Virginia
Delaware	Maine	Minnesota	North Carolina	South Carolina	Wisconsin
Florida	Maryland	Mississippi	Ohio	Texas	PETTER I

# 1. Is the project located in a CBRS Unit?

- $\square$  Yes  $\rightarrow$  Continue to Question 2.

Federal assistance for most activities may not be used at this location. You must either choose an alternate site or cancel the project. In very rare cases, federal monies can be spent within CBRS units for certain exempted activities (e.g., a nature trail), after consultation with the Fish and Wildlife Service (FWS) (see 16 USC 3505 for exceptions to limitations on expenditures).

# 2. Indicate your selected course of action.

- ☐ After consultation with the FWS the project was given approval to continue
  - → Based on the response, the review is in compliance with this section. Continue to the Worksheet Summary below. Provide a map and documentation of a FWS approval.
- ☐ Project was not given approval

  Project cannot proceed at this location.

### Official CBRS Maps

The John H. Chafee Coastal Barrier Resources System (CBRS) is a collection of specific units of land and associated aquatic habitats that serve as barriers protecting the Atlantic, Gulf, and Great Lakes coasts. The CBRS currently includes 585 System units, which comprise nearly 1.3 million acres of land and associated aquatic habitat. There are also 271 "otherwise protected areas," a category of coastal barriers already held for conservation purposes that include an additional 1.8 million acres of land and associated aquatic habitat.

Step 1: Use the Google Earth KML file or the State Locator Maps (PDF format) below to find a unit name(s).

### State Locator Maps

Alabama	Georgia	Massachusetts	Massachusetts New Jersey		Texas
Connecticut	<u>Louisiana</u>	Michigan	New York Great Lakes	Puerto Rico	Virgin Islands
<u>Delaware</u>	Maine	Minnesota	New York Long Island	Rhode Island	Virginia
<u>Florida</u>	Maryland	Mississippi	North Carolina	South Carolina	Wisconsin

Step 2: Download Official CBRS Maps (PDF format)

To download a map, click on a file name to save it, then open the file with a PDF viewer or editor.

# APPENDIX C CULTURAL RESOURCES HISTORIC PRESERVATION

# Historic Preservation (CEST and EA)

General requirements	Legislation	Regulation
Regulations under Section 106 of the National Historic Preservation Act (NHPA) require a consultative process to identify historic properties, assess project impacts on	Section 106 of the National Historic Preservation Act (16 U.S.C. 470f)	36 CFR 800 "Protection of Historic Properties"
	References	
https://www.hudexchange.info/e	nvironmental-review/histor	ric-preservation

### Threshold

Is Section 106 review requi	ired for your project?
-----------------------------	------------------------

□ No, because the project consists solely of activities listed as exempt in a Programmatic Agreement (PA). (See the PA Database to find applicable PAs.)

Either provide the PA itself or a link to it here. Mark the applicable exemptions or include the text here:

### III. EXEMPT ACTIVITIES

Municipalities are not required to complete Section 106 reviews for undertakings that are **limited solely** to those activities listed in Attachment B as they have limited potential to alter character defining qualities of properties listed on or eligible for listing on the National Register.

(See attached "CDBG Small Communities Programmatic Agreement No Effect Activities List.")

- → Continue to the Worksheet Summary.
- No, because the project consists solely of activities included in a No Potential to Cause Effects memo or other determination [36 CFR 800.3(a)(1)].
  Either provide the memo itself or a link to it here. Explain and justify the other determination here:
  - → Continue to the Worksheet Summary.
- Yes, because the project includes activities with potential to cause effects (direct or indirect).
  - → Continue to Step 1.

### **The Section 106 Process**

After determining the need to do a Section 106 review, initiate consultation with regulatory and other interested parties, identify and evaluate historic properties, assess effects of the project on properties listed on or eligible for the National Register of Historic Places, and resolve any adverse effects through project design modifications or mitigation.

Note that consultation continues through all phases of the review.

Step 1: Initiate consultation

Step 2: Identify and evaluate historic properties

Step 3: Assess effects of the project on historic properties

Step 4: Resolve any adverse effects

### Step 1 - Initiate Consultation

The following parties are entitled to participate in Section 106 reviews: Advisory Council on Historic Preservation; State Historic Preservation Officers (SHPOs); federally recognized Indian tribes/Tribal Historic Preservation Officers (THPOs); Native Hawaiian Organizations (NHOs); local governments; and project grantees. The general public and individuals and organizations with a demonstrated interest in a project may participate as consulting parties at the discretion of the RE or HUD official. Participation varies with the nature and scope of a project. Refer to HUD's website for guidance on consultation, including the required timeframes for response. Consultation should begin early to enable full consideration of preservation options.

Use the When to Consult with Tribes checklist within Notice CPD-12-006: Process for Tribal Consultation to determine if you should invite tribes to consult on a particular project. Use the Tribal Directory Assessment Tool (TDAT) to identify tribes that may have an interest in the area where the project is located. Note that consultants may not initiate consultation with Tribes.

# Select all consulting parties below (check all that apply):

	II. Consultation with Indian Tribes
	List all tribes that were consulted here and their status of consultation:
	Hawaiian Organizations (NHOs)
X	Indian Tribes, including Tribal Historic Preservation Officers (THPOs) or Native
	Advisory Council on Historic Preservation
X	State Historic Preservation Officer (SHPO)

Delaware Nation Delaware Tribe of Indians Seneca-Cayuga Nation Seneca Nation of Indians

Clinton County Historical Society			
Describe the process of selecting consulting parties and initiating consultation here:			
All known parties with a demonstrated interest in the project and/or local area history. All parties were consulted via email.			
Provide all correspondence, notices, and notes (including comments and objections received) and continue to Step 2.  Step 2 - Identify and Evaluate Historic Properties  Define the Area of Potential Effect (APE), either by entering the address(es) or providing a map depicting the APE. Attach an additional page if necessary.			
APE identified through PA-SHARE. No historic properties identified.			
Gather information about known historic properties in the APE. Historic buildings, districts and archeological sites may have been identified in local, state, and national surveys and registers, local historic districts, municipal plans, town and county histories, and local history websites. If not already listed on the National Register of Historic Places, identified properties are then evaluated to see if they are eligible for the National Register.  Refer to HUD's website for guidance on identifying and evaluating historic properties.  In the space below, list historic properties identified and evaluated in the APE.  Every historic property that may be affected by the project should be listed. For each historic property or district, include the National Register status, whether the SHPO has concurred with the finding, and whether information on the site is sensitive. Attach an additional page if necessary.			

Provide the documentation (survey forms, Register nominations, concurrence(s) and/or objection(s), notes, and photos) that justify your National Register Status determination.

# Was a survey of historic buildings and/or archeological sites done as part of the project?

If the APE contains previously unsurveyed buildings or structures over 50 years old, or there is a likely presence of previously unsurveyed archeological sites, a survey may be necessary. For Archeological surveys, refer to HP Fact Sheet #6, <u>Guidance on Archeological Investigations in HUD Projects</u>.

☐ Yes → Provide survey(s) and Additional notes:	report(s) and continue to Step 3	3.
□ No $\rightarrow$ Continue to Step 3.		

# Step 3 - Assess Effects of the Project on Nistoric Properties

Only properties that are listed on or eligible for the National Register of Historic Places receive further consideration under Section 106. Assess the effect(s) of the project by applying the Criteria of Adverse Effect. (36 CFR 800.5)] Consider direct and indirect effects as applicable as per HUD guidance.

Choose one of the findings below - No Historic Properties Affected, No Adverse Effect, or Adverse Effect; and seek concurrence from consulting parties.

### Document reason for finding:

- No historic properties present. → Provide concurrence(s) or objection(s) and continue to the Worksheet Summary.
- ☐ Historic properties present, but project will have no effect upon them. → Provide concurrence(s) or objection(s) and continue to the Worksheet Summary.

If consulting parties concur or fail to respond to user's request for concurrence, project is in compliance with this section. No further review is required. If consulting parties object, refer to (36 CFR 800.4(d)(1)) and consult further to try to resolve objection(s).

□ No Adverse Effect  Document reason for finding:
Does the No Adverse Effect finding contain conditions?  ☐ Yes  Check all that apply: (check all that apply)  ☐ Avoidance
<ul><li>☐ Modification of project</li><li>☐ Other</li><li>Describe conditions here:</li></ul>
→ Monitor satisfactory implementation of conditions. Provide concurrence(s) or objection(s) and continue to the Worksheet Summary.
$\square$ No $\rightarrow$ Provide concurrence(s) or objection(s) and continue to the Worksheet Summary.
If consulting parties concur or fail to respond to user's request for concurrence, project is in compliance with this section. No further review is required. If consulting parties object, refer to $(36 \text{ CFR } 800.5(c)(2))$ and consult further to try to resolve objection(s).
□ Adverse Effect  Document reason for finding:  Copy and paste applicable Criteria into text box with summary and justification.  Criteria of Adverse Effect: 36 CFR 800.5

Notify the Advisory Council on Historic Preservation of the Adverse Effect and provide the documentation outlined in 36 CFR 800.11(e). The Council has 15 days to decide whether to enter the consultation (Not required for projects covered by a Programmatic Agreement).

→ Continue to Step 4.

# Step 4 - Resolve Adverse Effects

Work with consulting parties to try to avoid, minimize or mitigate adverse effects. Refer to HUD guidance and 36 CFR 800.6 and 800.7.				
Were the Adverse Effects resolved?				
□ Yes				
Describe the resolution of Adverse Effects, including consultation efforts and participation by the Advisory Council on Historic Preservation:				
For the project to be brought into compliance with this section, all adverse impacts must be mitigated. Explain in detail the exact measures that must be implemented to mitigate for the impact or effect, including the timeline for implementation.				
→ Provide signed Memorandum of Agreement (MOA) or Standard Mitigation				
Measures Agreement (SMMA). Continue to the Worksheet Summary.  □ No				
The project must be cancelled unless the "Head of Agency" approves it. Either				
provide approval from the "Head of Agency" or cancel the project at this location.				
Describe the failure to resolve Adverse Effects, including consultation efforts and participation by the Advisory Council on Historic Preservation and "Head of the Agency":				

	Explain in detail the exact conditions or measures that must be implemented mitigate for the impact or effect, including the timeline for implementation.
	→ Provide correspondence, comments, documentation of decision, and "Head of Agency" approval. Continue to the Worksheet Summary.
Complia Provide a based or	eet Summary Ince Determination a clear description of your determination and a synopsis of the information that it was n, such as:

### Appendix A

### When To Consult With Tribes Under Section 106

Section 106 requires consultation with federally-recognized Indian tribes when a project may affect a historic property of religious and cultural significance to the tribe. Historic properties of religious and cultural significance include: archeological sites, burial grounds, sacred landscapes or features, ceremonial areas, traditional cultural places, traditional cultural landscapes, plant and animal communities, and buildings and structures with significant tribal association. The types of activities that may affect historic properties of religious and cultural significance include: ground disturbance (digging), new construction in undeveloped natural areas, introduction of incongruent visual, audible, or atmospheric changes, work on a building with significant tribal association, and transfer, lease or sale of properties of the types listed above.

If a project includes any of the types of activities below, invite tribes to consult:

### significant ground disturbance (digging)

Examples: new sewer lines, utility lines (above and below ground), foundations, footings, grading, access roads

### new construction in undeveloped natural areas

Examples: industrial-scale energy facilities, transmission lines, pipelines, or new recreational facilities, in <u>undeveloped</u> natural areas like mountaintops, canyons, islands, forests, native grasslands, etc., and housing, commercial, and industrial facilities in such areas

### incongruent visual changes

Examples: construction of a focal point that is out of character with the surrounding natural area, impairment of the vista or viewshed from an observation point in the natural landscape, or impairment of the recognized historic scenic qualities of an area

# incongruent audible changes

Examples: increase in noise levels above an acceptable standard in areas known for their quiet, contemplative experience

### incongruent atmospheric changes

Examples: introduction of lights that create skyglow in an area with a dark night sky

### work on a building with significant tribal association

Examples: rehabilitation, demolition or removal of a surviving ancient tribal structure or village, or a building or structure that there is reason to believe was the location of a significant tribal event, home of an important person, or that served as a tribal school or community hall

transfer, lease or sale of a historic property of religious and cultural significance Example: transfer, lease or sale of properties that contain archeological sites, burial grounds, sacred landscapes or features, ceremonial areas, plant and animal communities, or buildings and structures with significant tribal association

None of the above apply		
RBWA 12th Street Rehabilitation Project		October 24, 2025
Project	Reviewed By	Date

# **APPENDIX D**

**ENDANGERED SPECIES** 

# **Endangered Species Act (CEST and EA)**

General requirements	ESA Legislation	Regulations	
Section 7 of the Endangered Species Act (ESA) mandates that federal agencies ensure that actions that they authorize, fund, or carry out shall not jeopardize the continued existence of federally listed plants and animals or result in the adverse modification or destruction of designated critical habitat. Where their actions may affect resources protected by the ESA, agencies must consult with the Fish and Wildlife Service and/or the National Marine Fisheries Service ("FWS" and "NMFS" or "the Services").	The Endangered Species Act of 1973 (16 U.S.C. 1531 et seq.); particularly section 7 (16 USC 1536).	50 CFR Part 402	
References			
https://www.hudexchange.info/environmental-review/endangered-species			

1.	Does the project involve any activities that have the potential to affect species or
	habitats?
	I No the project will have No Effect due to the neture of the activities involved in the

□ No, the project will have No	Effect due to	the nature	of the	activities	involved	in the
project.						

→ Based on the response, the review is in compliance with this section. Continue to the Worksheet Summary below. Provide any documents used to make your determination.

	the project will have No Effect based on a letter of understanding, memorandum of eement, programmatic agreement, or checklist provided by local HUD office.
-	Explain your determination:

- → Based on the response, the review is in compliance with this section. Continue to the Worksheet Summary below. Provide any documents used to make your determination.
- ☑ Yes, the activities involved in the project have the potential to affect species and/or habitats.
  - → Continue to Question 2.
- 2. Are federally listed species or designated critical habitats present in the action area? Obtain a list of protected species from the Services. This information is available on the <u>FWS Website</u> or you may contact your <u>local FWS</u> and/or <u>NMFS</u> offices directly.
  - ☑ No, the project will have No Effect due to the absence of federally listed species and designated critical habitat.
    - → Based on the response, the review is in compliance with this section. Continue to the Worksheet Summary below. Provide any documents used to make your determination. Documentation may include letters from the Services, species lists

from the Services' websites, surveys or other documents and analysis showing that there are no species in the action area.

- ☐ Yes, there are federally listed species or designated critical habitats present in the action area.
  - → Continue to Question 3.

# 3. What effects, if any, will your project have on federally listed species or designated critical habitat?

- □ No Effect: Based on the specifics of both the project and any federally listed species in the action area, you have determined that the project will have absolutely no effect on listed species or critical habitat.
  - → Based on the response, the review is in compliance with this section. Continue to the Worksheet Summary below. Provide any documents used to make your determination. Documentation should include a species list and explanation of your conclusion, and may require maps, photographs, and surveys as appropriate.
- ☐ May Affect, Not Likely to Adversely Affect: Any effects that the project may have on federally listed species or critical habitats would be beneficial, discountable, or insignificant.
  - → Continue to Question 4. Informal Consultation
- ☐ Likely to Adversely Affect: The project may have negative effects on one or more listed species or critical habitat.
  - → Continue to Question 5, Formal Consultation.

# 4. Informal Consultation is required

Section 7 of ESA (16 USC. 1536) mandates consultation to resolve potential impacts to endangered and threatened species and critical habitats. If a HUD-assisted project may affect any federally listed endangered or threatened species or critical habitat, then compliance is required with Section 7. See 50 CFR Part 402 Subpart B Consultation Procedures.

# Did the Service(s) concur with the finding that the project is Not Likely to Adversely Affect?

# ☐ Yes, the Service(s) concurred with the finding.

- → Based on the response, the review is in compliance with this section. Continue to Question 6 and provide the following:
  - (1) A biological evaluation or equivalent document
  - (2) Concurrence(s) from FWS and/or NMFS
  - (3) Any other documentation of informal consultation

Exception: If finding was made based on procedures provided by a letter of understanding, memorandum of agreement, programmatic agreement, or checklist provided by local HUD office, provide whatever documentation is mandated by that agreement.

$\square$ N	10.	the	Service	s)	did (	not	concur	with	the	finding

→ Continue to Question 5.

5. Formal consultation is required

Section 7 of ESA (16 USC 1536) mandates consultation to resolve potential impacts to federally listed endangered and threatened species and critical habitats. If a HUD assisted project may affect any endangered or threatened species or critical habitat, then compliance is required with Section 7. See 50 CFR Part 402 Subpart B Consultation Procedures.

- → Once consultation is complete, the review is in compliance with this section. Continue to Question 6 and provide the following:
  - (1) A biological assessment, evaluation, or equivalent document
  - (2) Biological opinion(s) issued by FWS and/or NMFS
  - (3) Any other documentation of formal consultation

6.	For the project to be brought into compliance with this section, all adverse impacts must be mitigated. Explain in detail the proposed measures that will be implemented to mitigate for the impact or effect, including the timeline for implementation.						
	□ No mitigation is necessary.  Explain why mitigation will not be made here:						
	A. A						

### **Worksheet Summary**

# **Compliance Determination**

Provide a clear description of your determination and a synopsis of the information that it was based on, such as:

- Map panel numbers and dates
- Names of all consulted parties and relevant consultation dates
- Names of plans or reports and relevant page numbers
- Any additional requirements specific to your region

# Consultation 9/4/2025 with:

- U.S. Army Corps of Engineers
- PEMA
- FEMA
- Clinton County Historical Society
- State Historic Preservation Office
- Clinton County Conservation
- Pennsylvania Game Commission
- Pennsylvania Department of Conservation and Natural Resources
- Pennsylvania Fish and Boat Commission
- U.S. Fish and Wildlife Service
- PennDOT
- Renovo Borough
- Clinton County Planning
- · Pennsylvania Department of Community and Economic Development

No additional requirements identified from consultations.

Are formal of	complianc	e steps or mitigation required?
	Yes	
	No	

# 1. PROJECT INFORMATION

Project Name: RBWA 12th Street Rehabilitation Project

Date of Review: 8/26/2025 01:05:48 PM

Project Category: Development, Additions/maintenance to existing development facilities

Project Area: 0.20 acres County(s): Clinton

Township/Municipality(s): Renovo Borough

ZIP Code:

Quadrangle Name(s): RENOVO EAST

Watersheds HUC 8: Middle West Branch Susquehanna

Watersheds HUC 12: Hall Run-West Branch Susquehanna River

Decimal Degrees: 41.328189, -77.746667

Degrees Minutes Seconds: 41° 19' 41.4806" N, 77° 44' 48.18" W

# 2. SEARCH RESULTS

Agency	Results	Response  No Further Review Required, See Agency Comments		
PA Game Commission	Conservation Measure			
PA Department of Conservation and Natural Resources	No Known Impact	No Further Review Required		
PA Fish and Boat Commission	No Known Impact	No Further Review Required		
U.S. Fish and Wildlife Service	No Known Impact	No Further Review Required		

Pennsylvania Natural Diversity Inventory (PNDI) records indicate that while threatened and endangered and/or special concern species and resources are in the project vicinity and that recommended Conservation Measures should be implemented in their entirety to avoid and minimize impacts to these species, no further coordination is required with the jurisdictional agencies. If a DEP permit is required for this project, DEP has the discretion to incorporate one or more Conservation Measures into its permit. This response does not reflect potential agency concerns regarding potential impacts to other ecological resources, such as wetlands.

# **RESPONSE TO QUESTION(S) ASKED**

Q1: Is the proposed earth disturbance within a wooded area that has a south-facing slope and contains large rocks or boulders (talus or scree slope), rocky outcrops, or boulder fields?

Your answer is: No

**Q2:** Will the action include disturbance to trees such as tree cutting (or other means of knocking down, or bringing down trees, tree topping. or tree trimming), pesticide/herbicide application or prescribed fire?

Your answer is: No

Q3: Does the action area contain any caves (or associated sinkholes, fissures, or other karst features), mines, rocky outcroppings, culverts, or tunnels that could provide habitat for hibernating bats?

Your answer is: No

# 3. AGENCY COMMENTS

Regardless of whether a DEP permit is necessary for this proposed project, any potential impacts to threatened and endangered species and/or special concern species and resources must be resolved with the appropriate jurisdictional agency. In some cases, a permit or authorization from the jurisdictional agency may be needed if adverse impacts to these species and habitats cannot be avoided.

These agency determinations and responses are **valid for two years** (from the date of the review), and are based on the project information that was provided, including the exact project location; the project type, description, and features; and any responses to questions that were generated during this search. If any of the following change: 1) project location, 2) project size or configuration, 3) project type, or 4) responses to the questions that were asked during the online review, the results of this review are not valid, and the review must be searched again via the PNDI Environmental Review Tool and resubmitted to the jurisdictional agencies. The PNDI tool is a primary screening tool, and a desktop review may reveal more or fewer impacts than what is listed on this PNDI receipt. The jurisdictional agencies **strongly advise against** conducting surveys for the species listed on the receipt prior to consultation with the agencies.

# PA Game Commission RESPONSE:

Conservation Measure: Potential impacts to state and federally listed species which are under the jurisdiction of both the Pennsylvania Game Commission (PGC) and the U.S. Fish and Wildlife Service may occur as a result of this project. As a result, the PGC defers comments on potential impacts to federally listed species to the U.S. Fish and Wildlife Service. No further coordination with the Pennsylvania Game Commission is required at this time.

# PA Department of Conservation and Natural Resources RESPONSE:

No Impact is anticipated to threatened and endangered species and/or special concern species and resources.

# PA Fish and Boat Commission RESPONSE:

No Impact is anticipated to threatened and endangered species and/or special concern species and resources.

# U.S. Fish and Wildlife Service RESPONSE:

No impacts to **federally** listed or proposed species are anticipated. Therefore, no further consultation/coordination under the Endangered Species Act (87 Stat. 884, as amended; 16 U.S.C. 1531 et seq. is required. Because no take of federally listed species is anticipated, none is authorized. This response does not reflect potential Fish and Wildlife Service concerns under the Fish and Wildlife Coordination Act or other authorities.

# 4. DEP INFORMATION

The Pa Department of Environmental Protection (DEP) requires that a signed copy of this receipt, along with any required documentation from jurisdictional agencies concerning resolution of potential impacts, be submitted with applications for permits requiring PNDI review. Two review options are available to permit applicants for handling PNDI coordination in conjunction with DEP's permit review process involving either T&E Species or species of special concern. Under sequential review, the permit applicant performs a PNDI screening and completes all coordination with the appropriate jurisdictional agencies prior to submitting the permit application. The applicant will include with its application, both a PNDI receipt and/or a clearance letter from the jurisdictional agency if the PNDI Receipt shows a Potential Impact to a species or the applicant chooses to obtain letters directly from the jurisdictional agencies. Under concurrent review, DEP, where feasible, will allow technical review of the permit to occur concurrently with the T&E species consultation with the jurisdictional agency. The applicant must still supply a copy of the PNDI Receipt with its permit application. The PNDI Receipt should also be submitted to the appropriate agency according to directions on the PNDI Receipt. The applicant and the jurisdictional agency will work together to resolve the potential impact(s). See the DEP PNDI policy at https://conservationexplorer.dcnr.pa.gov/content/resources.

# 5. ADDITIONAL INFORMATION

The PNDI environmental review website is a preliminary screening tool. There are often delays in updating species status classifications. Because the proposed status represents the best available information regarding the conservation status of the species, state jurisdictional agency staff give the proposed statuses at least the same consideration as the current legal status. If surveys or further information reveal that a threatened and endangered and/or special concern species and resources exist in your project area, contact the appropriate jurisdictional agency/agencies immediately to identify and resolve any impacts.

For a list of species known to occur in the county where your project is located, please see the species lists by county found on the PA Natural Heritage Program (PNHP) home page (<a href="www.naturalheritage.state.pa.us">www.naturalheritage.state.pa.us</a>). Also note that the PNDI Environmental Review Tool only contains information about species occurrences that have actually been reported to the PNHP.

# **APPENDIX E**

WILD AND SCENIC RIVERS

# Wild and Scenic Rivers (CEST and EA)

General requirements	Legislation	Regulation
The Wild and Scenic Rivers Act provides federal protection for certain free-flowing, wild, scenic and recreational rivers designated as components or potential components of the National Wild and Scenic Rivers System (NWSRS) from the effects of construction or development.	The Wild and Scenic Rivers Act (16 U.S.C. 1271-1287), particularly section 7(b) and (c) (16 U.S.C. 1278(b) and (c))	36 CFR Part 297
	References	
https://www.hudexchange.info/envi	ronmental-review/wild-and-sc	enic-rivers

# 1. Is your project within proximity of a NWSRS river as defined below?

Wild & Scenic Rivers: These rivers or river segments have been designated by Congress or by states (with the concurrence of the Secretary of the Interior) as wild, scenic, or recreational.

<u>Study Rivers:</u> These rivers or river segments are being studied as a potential component of the Wild & Scenic River system.

Nationwide Rivers Inventory (NRI): The National Park Service has compiled and maintains the NRI, a register of river segments that potentially qualify as national wild, scenic, or recreational river areas

### ⊠ No

- → Based on the response, the review is in compliance with this section. Continue to the Worksheet Summary below. Provide documentation used to make your determination, such as a map identifying the project site and its surrounding area or a list of rivers in your region in the Screen Summary at the conclusion of this screen.
- ☐ Yes, the project is in proximity of a Nationwide Rivers Inventory (NRI) River.
- → Continue to Question 2.

# 2. Could the project do any of the following?

- Have a direct and adverse effect within Wild and Scenic River Boundaries,
- Invade the area or unreasonably diminish the river outside Wild and Scenic River Boundaries, or
- Have an adverse effect on the natural, cultural, and/or recreational values of a NRI segment.

Consultation with the appropriate federal/state/local/tribal Managing Agency(s) is required, pursuant to Section 7 of the Act, to determine if the proposed project may have an adverse

effect on a Wild & Scenic River or a Study River and, if so, to determine the appropriate avoidance or mitigation measures.

<u>Note</u>: Concurrence may be assumed if the Managing Agency does not respond within 30 days; however, you are still obligated to avoid or mitigate adverse effects on the rivers identified in the NWSRS

- □ No, the Managing Agency has concurred that the proposed project will not alter, directly, or indirectly, any of the characteristics that qualifies or potentially qualifies the river for inclusion in the NWSRS.
- → Based on the response, the review is in compliance with this section. Continue to the Worksheet Summary below. Provide documentation of the consultation (including the Managing Agency's concurrence) and any other documentation used to make your determination.
- ☐ Yes, the Managing Agency was consulted and the proposed project may alter, directly, or indirectly, any of the characteristics that qualifies or potentially qualifies the river for inclusion in the NWSRS.
- → Continue to Question 3.
- For the project to be brought into compliance with this section, all adverse impacts must be mitigated. Explain in detail the proposed measures that must

SP.

be implemented to mitigate for the impact or effect, including the timeline for implementation.

→ Continue to the Worksheet Summary below. Provide documentation of the consultation (including the Managing Agency's concurrence) and any other documentation used to make your determination.

National Park Service Rivers, Trails & Conservation Assistance 200 Chestnut Street, Rm. 260 Philadelphia, PA 19106 (215) 597-6482

charles barscz@nps.gov

River	County	Reach	Length (miles)	Year Listed/ Updated	Potential Classification	ORVs	Description
Clarion River	Clarion, Forest, Jefferson, Elk	Clarion to Ridgeway	53	1982		R	Recreation-(Corridor includes, or is adjacent to, a high diversity of public recreation areas, access sites and natural resource attractions.)
Clarion River	Clarion	Confluence with Allegheny River to Piney Dam Power Station	25	1982		s	Scenic-(Segment includes a unique diversity of views and spatial experiences due to landforms, vegetation, stream channel variation and flow gradients.)
Conewago Creek	Adams	Beaverdam Creek to headwaters	19	1982		G	Geologic-(Segment flows through the unique 680' "Narrows" water gap.)
Conneaut Creek	Ashtabula, Erie	SW limits of Conneaut (City) to Pennside, PA	50	1982		Н, О	Botanic-(Rich flora including instances of unique types in Ohio.)  Historic-(A prehistoric earthwork fortification at the Conneaut Works which is a National Historic Register Site.)
Conococheague Creek	Franklin	Maryland state border to Williamson	13	1982		С	Cultural-(Segment includes an exceptional density of stone arch bridges.)
Devils Race Course - Rattling Run	Dauphin	Confluence with Stony Creek to the headwaters	3	1982		0	See Stony Creek comments.
Double Run	Sullivan	Confluence with Loyalsock Creek to headwaters	?-	1982		S, R, G, H	See Loyalsock Creek comments.
Dry Run	Sullivan	Confluence with Loyalsock Creek to headwaters	4	1982		S, R, G, H	See Loyalsock Creek comments.
French Creek	Crawford, Erie	Erie-Lackawanna R.R. outside of Cambridge Springs to the Union City Dam	22	1982		o	Botanic-(Area includes the Muddy Creek Swamp which possesses an unusually diverse and complete range of succession types including virgin climax forest stand.)
French Creek	Berks, Chester	Hares Hill Road to the headwaters within Hopewell Village	18	1982		G, H, O	Hydrologic-(Segment is the northernmost, least developed, free-flowing river within the Piedmont Province.)  Historic-(River related National Historic Register sites and a Historic District within the corridor.)  Geologic-(Area includes the unique Falls of French Creek, a series of diabase boulders.)
Hell Run	Lawrence	Confluence with Slippery Rock Creek to Houk Rd. Bridge	2	1982		G, O	See Slippery Rock Creek (segment form Wurtenburg to south of McConnell's Mill) comments.

River	County	Reach	Length (miles)	Year Listed/ Updated	Potential Classification	ORVs	Description
Indian Creek	Fayette, Westmoreland	Youghiogheny River to headwaters	21	1982		R	Recreation-(Segment includes a diversity of gradlents including Class 3-5 rapids.)
Kettle Creek	Sullivan	Confluence with Loyalsock Creek to headwaters	8	1982		S, R, G, H	See Loyalsock Creek comments.
Kinzua Creek	McKean	Allegheny Reservoir to headwaters	18	1982		н	Historic-(Segment includes the Kinzua Viaduct, a National Historic Register Site, which is the second highest bridge of this type on the North American continent.)
Laurel Hill Creek	Somerset	Ursina to Allen Creek	15	1982		s	Scenic-(Segment includes a significant and diverse juxtaposition and combination of land, land uses, water and vegetative elements.)
							Recreation-(One of the most highly used whitewater runs in the mid-Atlantic region of the northeast United States. Segment includes a diversity of gradients including Class 3-5 rapids.)
Lehigh River	Carbon	Jim Thorpe to Lehigh Tannery	23	1982		R, G	Geologic-(Segment includes the Lehigh River Gorge with side walls of approximately 500 feet in height. Within the corridor is Glen Onoko a steep walled canyon of uncut timber and spectacular waterfalls.)
Little Juniata Creek	Blair, Huntingdon	Two miles south of Barree to south of Ironville	10	1982		G	Geologic-(Segment passes through Tussey Mountain where the river winds within 2 miles trench with cliff-like valley walls up to 700° in height.)
							Geologic-(Segment includes a diversity of significant features including the 500' deep canyon gorge, the haystack outcrops, a labyrinth area and numerous waterfalls.)
Loyalsock Creek	Lycoming, Sullivan	Tiadaghton State Forest to Lopez	36	1982		S, R, G, H	Scenic-(The canyon vista area affords a diversity of views of the 500' deep canyon gorge.)
							Historic-(Corridor includes the Hillsgrove Covered Bridge, a National Historic Register Site.)
							Recreation-(Portion of segment is the location for the National Whitewater championships.)
Moshannon Creek	Clearfield, Centre	W. Br. Susquehanna River to Winburne	26	1982		R	Recreation-(Segment possesses a unique combination of access sites, gradients, campsites and natural areas.)
Muddy Creek	Crawford	Confluence with French Creek to the bridge crossing near Eaton Corners	7	1982		0	See French Creek (segment from Erie-Lackawanna R.R. outside of Cambridge Springs to the Union City Dam) comments.

River	County	Reach	Length (miles)	Year Listed/ Updated	Potential Classification	ORVs	Description
Octoraro Creek	Lancaster, Chester	Octoraro Lake to one mile south of Christina	11	1982		G	Geologic-(River flows through a unique valley with cliff-like walls over 250' high.)
Octoraro Creek	Cecil, Lancaster	Camp Horseshoe to Pine Grove	9	1982		0	Botanic-(Corridor includes the highest quality extensive stand of hemlock documented in the Piedmont region. Also adjacent to the river is a red oak community with a regionally unique combination of canopy trees and ferns.)
							Geologic-(Segment flows through a lengthy series of water gaps.)
Penns Creek	Centre, Mifflin, Union	Upstream from Glen Iron to Springs Mill	19	1982		S, G	Scenic-(Within the segment is the nationally recognized Poe Paddy Drive, which affords a unique diversity of views due to variations in land forms and river channel.)
							Botanic-(Segment includes the McConnell's Mill State Park, a National Natural Landmark.)
Slippery Rock Creek	Lawrence	Wurtenburg to south of McConnells Mill	5	1982		G, O	Geologic-(Segment is unique in that its geologic history represents a deviation from the normal stream erosional evolution. McConnell's Mill gorge, in decided contrast to most river corridors in the region, represents inverse mountainous scenery.)
Slippery Rock Creek	Lawrence	South of Route 422 to east of Elliots Mills	8	1982		G	Geologic-(Segment is a portion of a unique example of a deviation from normal stream erosional evolution.)
Stony Creek	Dauphin	Stony Creek Reservoir to the headwaters near the Appalachian Trail	18	1982		G, O	Wild-(A major portion of the segment corridor and surrounding watersheds are virtually undeveloped and remote.)
							Geologic-(Segment includes an undisturbed relic of a former periglacial climate.)

River	County	Reach	Length (miles)	Year Listed/ Updated	Potential Classification	ORVs	Description
							Historic-(Segment includes the Iroquois "Prayer Rocks"; over this trail traveled the Six Nations war parties against southern Indians; a portion was the site of the colony for refugees from the French Revolution settled in 1793.)
Susquehanna River	Bradford, Wyoming	Laceyville to south of Rt. 187	28	1982		S, H, O	Scenic-(A unique, undeveloped view of a large meander.)
							Hydrologic-(One of the largest (in CFS) free-flowing, relatively undeveloped high order rivers in the northeast.)
		Tunkhannock to one					Geologic-(Segment includes a sectionally unique undeveloped meander isolating a piece of land over 2 miles long and a mile wide.)
Susquehanna River	Wyoming	mile south of Carney Flat	8	1982		G, O	Hydrologic-(One of the largest (in CFS) free-flowing, relatively undeveloped high order rivers in the northeast.)
Susquehanna River	Bradford	North of Towanda to Paines Island	12	1982		0	Hydrologic-(One of the largest (in CFS) free-flowing, relatively undeveloped high order rivers in the northeast.)
Susquehanna River, West Branch	Clearfield, Centre	West of Renova to Karthus	20	1982		S, G	Geologic-("Canyon" reach between Keating and Karthus is the largest gentle water canyon in the northeast.)  Scenic-(A wide variety and diversity of unique views and spatial experiences related to the steep and mountainous
							topography, vegetation cover and diversity of the channel pattern.)
Susquehanna River, West Branch	Lycoming	Muncy to the Montoursville corporate boundary	5	1982		o	Hydrologic-(An excellent example of a relatively undeveloped, high order river.)
Susquehanna River, West Branch	Clearfield, Centre	Karthus to downstream of Walton	19	1982		0	Hydrologic-(An excellent and rare example of a relatively undeveloped river which flows through open low mountains.)
Susquehanna River, West Branch	Clearfield	Dowler Junction to north of Stifflertown	8	1982		0	Hydrologic-(An excellent and rare example of a relatively undeveloped river which flows through open low mountains.)
Susquehanna River, West Branch	Clinton	Queens Run to Young Woman's Creek	18	1982		0	Hydrologic-(An excellent and rare example of a relatively undeveloped high order river which flows through open low mountains.)

## APPENDIX F SOLE SOURCE AQUIFERS

#### Sole Source Aquifers (CEST and EA)

General requirements	Legislation	Regulation
The Safe Drinking Water Act of 1974 protects drinking water systems which are the sole or principal drinking water source for an area and which, if contaminated, would create a significant hazard to public health.	300f et seq., and 21	40 CFR Part 149
	Reference	
https://www.hudexchange.info/environ	mental-review/sole-source	-aquifers

1. Is the project located on a sole source aquifer (SSA)<sup>1</sup>?

$\boxtimes$ No $\rightarrow$	Based on the response, the review is in compliance with this section. Continue
	to the Worksheet Summary below. Provide documentation used to make your
	determination, such as a map of your project (or jurisdiction, if appropriate) in
	relation to the nearest SSA and its source area.

 $\square$  Yes  $\rightarrow$  Continue to Question 2.

2.	Does your project consist solely of	of acquisi	ition,	leasing,	or reha	bilitation	of an
	existing building(s)?						

$\square$ Yes $\rightarrow$	Based on the response, the	eview is in d	compliance v	vith this s	section.
	Continue to the Worksheet Su				

□ No → Continue to Question 3.

3. Does your region have a memorandum of understanding (MOU) or other working agreement with EPA for HUD projects impacting a sole source aquifer?

Contact your Field or Regional Environmental Officer or visit the HUD webpage at the link above to determine if an MOU or agreement exists in your area.

$\square$ Yes $\rightarrow$	Provide the	MOU or	agreement	as part	of your	supporting	documentation	1.
	Continue to	Question	n 4.					

 $\square$  No  $\rightarrow$  Continue to Question 5.

#### 4. Does your MOU or working agreement exclude your project from further review?

$\square$ Yes $\rightarrow$ Based on the response, the review is in compliance with this section.
Continue to the Worksheet Summary below. Provide documentation used to
make your determination and document where your project fits within the MOI
or agreement.

 $\square$  No  $\rightarrow$  Continue to Question 5.

5. Will the proposed project contaminate the aquifer and create a significant hazard to public health?

<sup>&</sup>lt;sup>1</sup> A sole source aquifer is defined as an aquifer that supplies at least 50 percent of the drinking water consumed in the area overlying the aquifer. This includes streamflow source areas, which are upstream areas of losing streams that flow into the recharge area.

Consult with your Regional EPA Office. Your consultation request should include detailed information about your proposed project and its relationship to the aquifer and associated streamflow source area. EPA will also want to know about water, storm water and waste water at the proposed project. Follow your MOU or working agreement or contact your Regional EPA office for specific information you may need to provide. EPA may request additional information if impacts to the aquifer are questionable after this information is submitted for review.

- □ No → Based on the response, the review is in compliance with this section. Continue to the Worksheet Summary below. Provide your correspondence with the EPA and all documents used to make your determination.
- □ Yes → Work with EPA to develop mitigation measures. If mitigation measures are approved, attach correspondence with EPA and include the mitigation measures in your environmental review documents and project contracts. If EPA determines that the project continues to pose a significant risk to the aquifer, federal financial assistance must be denied. Continue to Question 6.
- In order to continue with the project, any threat must be mitigated, and all mitigation
  must be approved by the EPA. Explain in detail the proposed measures that can be
  implemented to mitigate for the impact or effect, including the timeline for
  implementation.
  - → Continue to the Worksheet Summary below. Provide documentation of the consultation (including the Managing Agency's concurrence) and any other documentation used to make your determination.

#### **APPENDIX G**

**FARMLAND PROTECTION** 

#### Farmlands Protection (CEST and EA)

Farmland Protection Policy	7 CFR Part 658
Act of 1981 (7 U.S.C. 4201 et seq.)	
R	Reference
S	eq.)

I	Reference
htt	tps://www.hudexchange.info/environmental-review/farmlands-protection
1.	Does your project include any activities, including new construction, acquisition of undeveloped land or conversion, that could convert agricultural land to a Non-agricultural use? $\Box$ Yes $\rightarrow$ Continue to Question 2.
	<ul> <li>□ Tes → Continue to Question 2.</li> <li>□ No</li> </ul>
	Explain how you determined that agricultural land would not be converted:
	Consultation with Clinton County Conservation District.
	→ Based on the response, the review is in compliance with this section. Continue
	to the Worksheet Summary below. Provide any documentation supporting your determination.
2.	Does "important farmland," including prime farmland, unique farmland, or farmland of statewide or local importance regulated under the Farmland Protection Policy Act, occur on the project site?  You may use the links below to determine important farmland occurs on the project site:

- Utilize USDA Natural Resources Conservation Service's (NRCS) Web Soil Survey http://websoilsurvey.nrcs.usda.gov/app/HomePage.htm
- Check with your city or county's planning department and ask them to document if the project is on land regulated by the FPPA (zoning important farmland as Nonagricultural does Not exempt it from FPPA requirements)
- Contact NRCS at the local USDA service center http://offices.sc.egov.usda.gov/locator/app?agency=nrcs or your NRCS state soil scientist http://soils.usda.gov/contact/state offices/ for assistance

□ No → Based on the response, the review is in compliance with this section. Continue to the Worksheet Summary below. Provide any documents used to make your
determination.
$\square$ Yes $\rightarrow$ Continue to Question 3.

- 3. Consider alternatives to completing the project on important farmland and means of avoiding impacts to important farmland.
  - Complete form AD-1006, "Farmland Conversion Impact Rating"
     http://www.nrcs.usda.gov/Internet/FSE\_DOCUMENTS/stelprdb1045394.pdf
     and contact the state soil scientist before sending it to the local NRCS District Conservationist.
  - (NOTE: for corridor type projects, use instead form NRCS-CPA-106, "Farmland Conversion Impact Rating for Corridor Type Projects: <a href="http://www.nrcs.usda.gov/Internet/FSE">http://www.nrcs.usda.gov/Internet/FSE</a> DOCUMENTS/stelprdb1045395.pdf.)
  - Work with NRCS to minimize the impact of the project on the protected farmland.
  - When you have finished with your analysis, return a copy of form AD-1006 (or form NRCS-CPA-106 if applicable) to the USDA-NRCS State Soil Scientist or his/her designee informing them of your determination.

□F	cument your conclusion:  Project will proceed with mitigation.  Explain in detail the proposed measures that must be implemented to mitigate for the impact or effect, including the timeline for implementation.
	<ul> <li>→ Based on the response, the review is in compliance with this section. Continue to the Worksheet Summary below. Provide form AD-1006 and all other documents used to make your determination.</li> <li>Project will proceed without mitigation.</li> </ul>
	Explain why mitigation will not be made here:
	→ Based on the response, the review is in compliance with this section. Continue to the

Worksheet Summary below. Provide form AD-1006 and all other documents used to make your determination.

#### **Worksheet Summary**

#### **Compliance Determination**

#### NOTICE OF PROPOSED DEVELOPMENT OR ALTERATION (AV-57)

#### **PURPOSE:**

A person who plans to erect a new structure, to add to an existing structure, or to erect or maintain any object (natural or manmade), as defined in 14 Code of Federal Regulations Part 77.9 (as amended or replaced, shall first obtain approval from the Department by submitting a written notice (Form AV-57) to the Department at least thirty (30) days prior to commencement thereof.

Developers who do not meet the notification requirements of FAR Part 77 may use this form to voluntarily notify the Bureau of Aviation of the existence, or proposed erection of Meteorological Towers (MET), and/or other tall structures. Structures will be added to the State's tower database and depicted electronically on the Bureau's website for flight hazard awareness.

#### REFERENCES:

- A. Department of Transportation Aviation Regulations, Chapter 479, Title 67, PA Consolidated Statutes. Sec. 479.4. AIRPORT OBSTRUCTIONS
- B. Federal Air Regulation, Part 77 and Part 157

#### **\$77.9 CONSTRUCTION OR ALTERATION REQUIRING NOTICE**

If requested by the FAA, or if you propose any of the following types of construction or alteration, you must file notice with the FAA of:

- (a) Any construction or alteration of more than 200 feet in height above the ground level at its site.
- (b) Any construction or alteration of greater height than an imaginary surface extending outward and upward at one of the following slopes:
  - (1) 100 to 1 for a horizontal distance of 20,000 feet from the nearest point of the nearest runway of each airport described in subparagraph (d) of this paragraph with at least one runway more than 3,200 feet in actual length.
  - (2) 50 to 1 for a horizontal distance of 10,000 feet from the nearest point of the nearest runway of each airport described in subparagraph (d) of this paragraph with its longest runway no more than 3,200 feet in actual length.
  - (3) 25 to 1 for a horizontal distance of 5,000 feet from the nearest point of the nearest point of the nearest landing and takeoff area of each heliport described in subparagraph (d) of this paragraph.
- (c) Any highway, railroad, or other traverse way for mobile objects, of a height which, if adjusted upward 17 feet for an interstate Highway that is part of the National System of Military and Interstate Highways where overcrossings are designed for a minimum of 17 feet vertical distance, 15 feet for any other public roadway, 10 feet or the height of the highest mobile object that would normally traverse the road, whichever is greater, for a private road, 23 feet for a railroad, and for a waterway or any other traverse way not previously mentioned, an amount equal to the height of the highest mobile object that would normally traverse it, would exceed a standard of subparagraph (a) or (b) of this paragraph.
- (d) Any construction or alteration on any of the following airports (and heliports):
  - (1) A public use airport listed in the Airport/Facility Directory or Chart Supplement of the U.S. Government Flight Information Publications:
  - (2) An airport under construction, that is the subject of a notice or proposal on file with the Federal Aviation Administration, and except for military airports, it is clearly indicated that that airport will be available for public use;
  - (3) An airport that is operated by a Federal agency or the Department of Defense;
  - (4) An airport or heliport with at least one FAA-approved instrument approach procedures.

#### **INSTRUCTIONS:**

- 1. Complete all applicable sections of the form:
  - a. Sponsor Information (and point of contact if different than sponsor).
  - b. Nature of Proposal. List type of notice, duration of proposal, work dates, and full description of the proposal (include sketches, diagrams and/or maps, as necessary to depict the location of the structures.)
  - c. Location of Structure. Enter exact latitude/longitudinal coordinates of the structure(s). Indicate County, nearest city or town, and proximity to nearest airport (public or private).
  - d. Height & based elevation: Enter the base elevation of the site, the height of the structure, and the overall height projected above mean sea level – to the nearest foot.
  - e. Certification: Owner/authorized agent must sign and date.

Please mail the completed notice to: PA Department of Transportation

Bureau of Aviation P.O. Box 3151 Harrisburg, PA 17105

#### **APPENDIX I**

**NOISE ABATEMENT AND CONTROL** 

#### Noise (EA Level Reviews)

General requirements	Legislation	Regulation
HUD's noise regulations protect	Noise Control Act of 1972	Title 24 CFR 51
residential properties from		Subpart B
excessive noise exposure. HUD	General Services	
encourages mitigation as	Administration Federal	1 6 3 4 7
appropriate.	Management Circular 75-2:	
	"Compatible Land Uses at	
	Federal Airfields"	
	References	
https://www.hudexchange.info/proand-control	ograms/environmental-review/n	oise-abatement-

$\overline{}$	d-control
1.	What activities does your project involve? Check all that apply:  ☐ New construction for residential use  NOTE: HUD assistance to new construction projects is generally prohibited if they are located in an Unacceptable zone, and HUD discourages assistance for new construction projects in Normally Unacceptable zones. See 24 CFR 51.101(a)(3) for further details.  → Continue to Question 2.
	□ Rehabilitation of an existing residential property NOTE: For major or substantial rehabilitation in Normally Unacceptable zones, HUD encourages mitigation to reduce levels to acceptable compliance standards. For major rehabilitation in Unacceptable zones, HUD strongly encourages mitigation to reduce levels to acceptable compliance standards. See 24 CFR 51 Subpart B for further details.  → Continue to Question 2.
	☐ A research demonstration project which does not result in new construction or reconstruction, interstate, land sales registration, or any timely emergency assistance under disaster assistance provisions or appropriations which are provided to save lives, protect property, protect public health and safety, remove debris and wreckage, or assistance that has the effect of restoring facilities substantially as they existed prior to the disaster  → Based on the response, the review is in compliance with this section. Continue to the Worksheet Summary below.
	<ul> <li>☒ None of the above</li> <li>→ Based on the response, the review is in compliance with this section. Continue to the Worksheet Summary below.</li> </ul>

2. Complete the Preliminary Screening to identify potential noise generators in the vicinity (1000' from a major road, 3000' from a railroad, or 15 miles from an airport). Indicate the findings of the Preliminary Screening below:

771					141 . 41			1	
 Inoro	are no	NOICO	CANARATARA	ナヘー・ロペ	MAZITHININ TE	201	hrachald	dictanage	ahava
 HIGHE	ale iii	THOISE	generators	шина	VVIIIIIII II	16.	unesnou	UISIALICES	aucuve

	→ Based on the response, the review is in compliance with this section. Continue to the Worksheet Summary below. Provide a map showing the location of the project relative to any noise generators.
	<ul> <li>□ Noise generators were found within the threshold distances.</li> <li>→ Continue to Question 3.</li> </ul>
3.	Complete the Noise Assessment Guidelines to quantify the noise exposure. Indicate the findings of the Noise Assessment below:
	☐ Acceptable: (65 decibels or less; the ceiling may be shifted to 70 decibels in circumstances described in §24 CFR 51.105(a))
	Indicate noise level here:
	→ Based on the response, the review is in compliance with this section. Continue to the Worksheet Summary below. Provide noise analysis, including noise level and data used to complete the analysis.
	☐ Normally Unacceptable: (Above 65 decibels but not exceeding 75 decibels; the floor may be shifted to 70 decibels in circumstances described in 24 CFR 51.105(a))
	Indicate noise level here:
	If project is rehabilitation:  → Continue to Question 4. Provide noise analysis, including noise level and data used to complete the analysis.
	If project is new construction:  Is the project in a largely undeveloped area1?
	→ Continue to Question 4. Provide noise analysis, including noise level and data used to complete the analysis, and any other relevant information.
	☐ Yes  →Your project requires completion of an Environmental Impact Statement (EIS) pursuant to 51.104(b)(1)(i). Elevate this review to an EIS-level review.
	☐ Unacceptable: (Above 75 decibels)
	Indicate noise level here:
	If project is rehabilitation:
	HUD strongly encourages conversion of noise-exposed sites to land uses compatible with high noise levels. Consider converting this property to a non-

residential use compatible with high noise levels.

<sup>&</sup>lt;sup>1</sup> A largely undeveloped area means the area within 2 miles of the project site is less than 50 percent developed with urban uses or does not have water and sewer capacity to serve the project.

→ Continue to Question 4. Provide noise analysis, including noise level and data used to complete the analysis, and any other relevant information.

	inomation.
	If project is new construction: Your project requires completion of an Environmental Impact Statement (EIS) pursuant to 51.104(b)(1)(i). You may either complete an EIS or provide a waiver signed by the appropriate authority. Indicate your choice:
	<ul> <li>□ Convert to an EIS</li> <li>→ Provide noise analysis, including noise level and data used to complete the analysis.</li> <li>Continue to Question 4.</li> </ul>
	□ Provide waiver  → Provide an Environmental Impact Statement waiver from the Certifying Officer or the Assistant Secretary for Community Planning and Development per 24 CFR 51.104(b)(2) and noise analysis, including noise level and data used to complete the analysis.  Continue to Question 4.
4.	HUD strongly encourages mitigation be used to eliminate adverse noise impacts. Explain in detail the exact measures that must be implemented to mitigate for the impact or effect, including the timeline for implementation. This information will be automatically included in the Mitigation summary for the environmental review.
	→ Provide drawings, specifications, and other materials as needed to describe the project's noise mitigation measures. Continue to the Worksheet Summary.
	☐ No mitigation is necessary.  Explain why mitigation will not be made here:

→ Continue to the Worksheet Summary.

## APPENDIX J CONTAMINATION AND TOXIC SUBSTANCES EXPLOSIVE AND FLAMMABLE HAZARDS

#### Contamination and Toxic Substances (Multifamily and Non-Residential Properties)

General requirements	Legislation	Regulations
It is HUD policy that all properties that are being proposed for use in HUD programs be		24 CFR 58.5(i)(2)
free of hazardous materials, contamination, toxic chemicals and gases, and radioactive substances, where a hazard could affect the health and safety of the occupants or conflict with the intended utilization of the property.		24 CFR 50.3(i)
Reference		
https://www.hudexchange.info/programs/environn	nental-review/site-	contamination

	☐ ASTM Phase I ESA
	☐ ASTM Phase II ESA
	☐ Remediation or clean-up plan
	☐ ASTM Vapor Encroachment Screening
	None of the above     ✓
	ightarrow Provide documentation and reports and include an explanation of how site
	contamination was evaluated in the Worksheet Summary.
	Continue to Question 2.
2.	,
	that could affect the health and safety of project occupants or conflict with the intended use of the property? (Were any recognized environmental conditions
	or RECs identified in a Phase I ESA and confirmed in a Phase II ESA?)
	⊠ No
	Explain:
	→ Based on the response, the review is in compliance with this section.
	Continue to the Worksheet Summary below.
	☐ Yes.
	→ Describe the findings, including any recognized environmental conditions
	(RECs), in Worksheet Summary below. Continue to Question 3.

<sup>&</sup>lt;sup>1</sup> HUD regulations at 24 CFR § 58.5(i)(2)(ii) require that the environmental review for multifamily housing with five or more dwelling units or Non-residential property include the evaluation of previous uses of the site or other evidence of contamination on or near the site. For acquisition and new construction of multifamily and Nonresidential properties HUD strongly advises the review include an ASTM Phase I Environmental Site Assessment (ESA) to meet real estate transaction standards of due diligence and to help ensure compliance with HUD's toxic policy at 24 CFR §58.5(i) and 24 CFR §50.3(i). Also note that some HUD programs require an ASTM Phase I ESA.

3.	na.	 ~~	• •
-7-	IVI	 	) II I
•		 ga	

Document the mitigation needed according to the requirements of the appropriate federal, state, tribal, or local oversight agency. If the adverse environmental effects cannot be mitigated, then HUD assistance may not be used for the project at this site.

	Can adverse environmental impacts be mitigated?  □ Adverse environmental impacts cannot feasibly be mitigated  → Project cannot proceed at this location.
	<ul> <li>☐ Yes, adverse environmental impacts can be eliminated through mitigation.</li> <li>→ Provide all mitigation requirements<sup>2</sup> and documents. Continue to Question 4.</li> </ul>
4.	Describe how compliance was achieved. Include any of the following that apply: State Voluntary Clean-up Program, a No Further Action letter, use of engineering controls <sup>3</sup> , or use of institutional controls <sup>4</sup> .
	If a remediation plan or clean-up program was necessary, which standard does it follow?
	☐ Complete removal
	→ Continue to the Worksheet Summary.
	☐ Risk-based corrective action (RBCA)

→ Continue to the Worksheet Summary.

<sup>&</sup>lt;sup>2</sup> Mitigation requirements include all clean-up actions required by applicable federal, state, tribal, or local law. Additionally, provide, as applicable, the long-term operations and maintenance plan, Remedial Action Work Plan, and other equivalent documents.

<sup>&</sup>lt;sup>3</sup> Engineering controls are any physical mechanism used to contain or stabilize contamination or ensure the effectiveness of a remedial action. Engineering controls may include, without limitation, caps, covers, dikes, trenches, leachate collection systems, signs, fences, physical access controls, ground water monitoring systems and ground water containment systems including, without limitation, slurry walls and ground water pumping systems

<sup>&</sup>lt;sup>4</sup> Institutional controls are mechanisms used to limit human activities at or near a contaminated site, or to ensure the effectiveness of the remedial action over time, when contaminants remain at a site at levels above the applicable remediation standard which would allow for unrestricted use of the property. Institutional controls may include structure, land, and natural resource use restrictions, well restriction areas, classification exception areas, deed notices, and declarations of environmental restrictions.

#### **Explosive and Flammable Hazards (CEST and EA)**

General requirements	Legislation	Regulation
HUD-assisted projects must meet Acceptable Separation Distance (ASD) requirements to protect them from explosive and flammable hazards.	N/A	24 CFR Part 51 Subpart C
	Refe	erence
https://www.hudexchange.info/environmer	ntal-review/explosive-and	d-flammable-facilities

	Reference
htt	tps://www.hudexchange.info/environmental-review/explosive-and-flammable-facilities
	Does the proposed HUD-assisted project include a hazardous facility (a facility that mainly stores, handles or processes flammable or combustible chemicals such as bulk fuel storage facilities and refineries)?  ☑ No → Continue to Question 2.  ☐ Yes Explain:
	Explain.
	→ Continue to Question 5.
	Does this project include any of the following activities: development, construction, rehabilitation that will increase residential densities, or conversion?  ☑ No  → Based on the response, the review is in compliance with this section. Continue to the Worksheet Summary below.
	□ Yes
	→ Continue to Question 3.
3	<ul> <li>Within 1 mile of the project site, are there any current or planned stationary aboveground storage containers:</li> <li>Of more than 100-gallon capacity, containing common liquid industrial fuels OR</li> <li>Of any capacity, containing hazardous liquids or gases that are not common liquid industrial fuels?</li> </ul>
	<ul> <li>□ No</li> <li>→ Based on the response, the review is in compliance with this section. Continue to the Worksheet Summary below. Provide all documents used to make your determination.</li> </ul>
	<ul> <li>☐ Yes</li> <li>→ Continue to Question 4.</li> </ul>

### RBWA 12th Street Rehabilitation Project Renovo Borough, Clinton County 4. Is the Separation Distance from the project acceptable based on standards in the

<ul> <li>→ Based on the response, the review is in compliance with this section. Continue the Worksheet Summary below. Provide map(s) showing the location of the project is relative to any tanks and your separation distance calculations. If the new identifies more than one tank, please identify the tank you have chosen as "assessed tank."</li> <li>□ No</li> <li>→ Provide map(s) showing the location of the project site relative to any tanks a your separation distance calculations. If the map identifies more than one tangle please identify the tank you have chosen as the "assessed tank." Continue to Question 6.</li> <li>5. Is the hazardous facility located at an acceptable separation distance from the residences and any other facility or area where people may congregate or present?</li> <li>Please visit HUD's website for information on calculating Acceptable Separation Distance.</li> <li>□ Yes</li> <li>→ Based on the response, the review is in compliance with this section. Continue the Worksheet Summary below. Provide map(s) showing the location of the project is relative to residences and any other facility or area where people congregate or are present and your separation distance calculations.</li> <li>□ No</li> <li>→ Provide map(s) showing the location of the project site relative to residences and any other facility or area where people congregate or are present and your separation distance calculations. Continue to Question 6.</li> <li>For the project to be brought into compliance with this section, all adverse impactuates the mitigated. Explain in detail the exact measures that must be implemented to make the Separation Distance acceptable, including the timeline fermion of the project is the mass of the project to be brought and calculations.</li> </ul>	•	Regulation? Please visit HUD's website for information on calculating Acceptable Separation Distance.
<ul> <li>→ Provide map(s) showing the location of the project site relative to any tanks a your separation distance calculations. If the map identifies more than one tan please identify the tank you have chosen as the "assessed tank."</li></ul>		☐ Yes  → Based on the response, the review is in compliance with this section. Continue to the Worksheet Summary below. Provide map(s) showing the location of the project site relative to any tanks and your separation distance calculations. If the map identifies more than one tank, please identify the tank you have chosen as the "assessed tank."
<ul> <li>→ Provide map(s) showing the location of the project site relative to any tanks a your separation distance calculations. If the map identifies more than one tan please identify the tank you have chosen as the "assessed tank."</li></ul>		□No
residences and any other facility or area where people may congregate or present? ## **APPENDIX K**

**CLEAN AIR** 

## RBWA 12th Street Rehabilitation Project Renovo Borough, Clinton County

### Air Quality (CEST and EA)

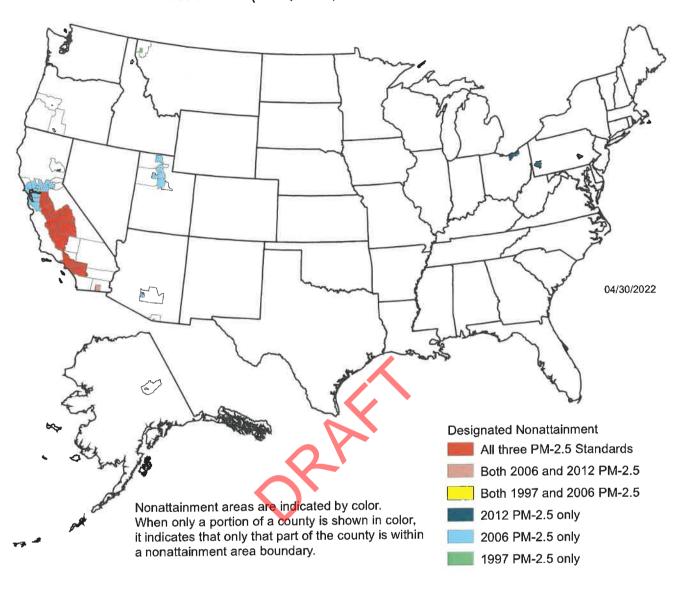

General Requirements	Legislation	Regulation					
The Clean Air Act is administered by the U.S. Environmental Protection Agency (EPA), which sets national standards on ambient pollutants. In addition, the Clean Air Act is administered by States, which must develop State Implementation Plans (SIPs) to regulate their state air quality. Projects funded by HUD must demonstrate that they conform to the	Clean Air Act (42 USC 7401 et seq.) as amended particularly Section 176(c) and (d) (42 USC 7506(c) and (d))	40 CFR Parts 6, 51 and 93					
Reference							
https://www.hudexchange.info/environmen	tal-review/air-quality						

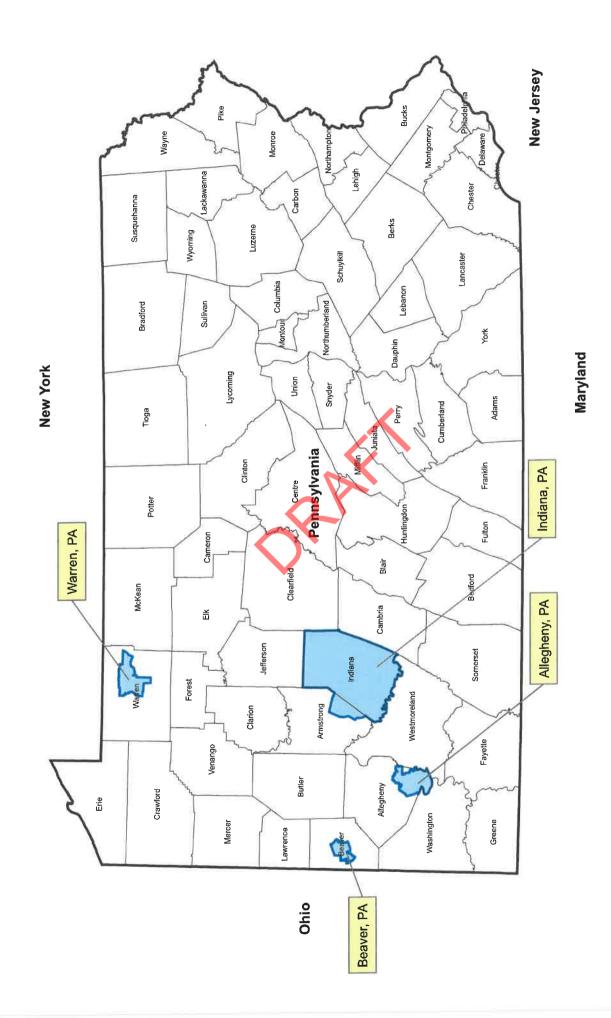

### Scope of Work

1.	Does your project include new construction or conversion of land use facilitating the development of public, commercial, or industrial facilities OR five or more dwelling units?
	☐ Yes  → Continue to Question 2.
Air Qu	uality Attainment Status of Project's County or Air Quality Management District
2.	Is your project's air quality management district or county in non-attainment or maintenance status for any criteria pollutants?  Follow the link below to determine compliance status of project county or air quality management district: <a href="http://www.epa.gov/oaqps001/greenbk/">http://www.epa.gov/oaqps001/greenbk/</a>
	<ul> <li>No, project's county or air quality management district is in attainment status for all criteria pollutants</li> <li>→ Based on the response, the review is in compliance with this section. Continue to the Worksheet Summary below. Provide any documents used to make your determination.</li> </ul>
	Yes, project's management district or county is in non-attainment or maintenance status for one or more criteria pollutants. Describe the findings:

RBWA 12th Street Rehabilitation Project Renovo Borough, Clinton County
→ Continue to Question 3.
<ul> <li>Determine the estimated emissions levels of your project for each of those criteria pollutants that are in non-attainment or maintenance status on your project area. Will your project exceed any of the de minimis or threshold emissions levels of non-attainment and maintenance level pollutants or exceed the screening levels established by the state or air quality management district?</li> <li>□ No, the project will not exceed de minimis or threshold emissions levels or screening levels</li> <li>→ Based on the response, the review is in compliance with this section. Continue to the Worksheet Summary below. Explain how you determined that the project would not exceed de minimis or threshold emissions.</li> </ul>
<ul> <li>☐ Yes, the project exceeds de minimis emissions levels or screening levels.</li> <li>→ Continue to Question 4. Explain how you determined that the project would not exceed de minimis or threshold emissions in the Worksheet Summary.</li> </ul>
4. For the project to be brought into compliance with this section, all adverse impacts must be mitigated. Explain in detail the exact measures that must be implemented to mitigate for the impact or effect, including the timeline for implementation.
Worksheet Summary Compliance Determination Provide a clear description of your determination and a synopsis of the information that it was based on, such as:  • Map panel numbers and dates • Names of all consulted parties and relevant consultation dates • Names of plans or reports and relevant page numbers • Any additional requirements specific to your region
