**SEDA-COG Metropolitan Planning Organization (MPO)**  
**Annual Listing of Federally Obligated Projects**  
**FFY 2023 (October 1, 2022 – September 30, 2023)**

**SEDA-COG MPO**

The SEDA-COG MPO is the official organization through which federal transportation funds are distributed, planned, programmed, and implemented in Clinton, Columbia, Juniata, Mifflin, Montour, Northumberland, Snyder, and Union counties. The SEDA-COG MPO operates via an agreement with PennDOT to approve studies and capital improvements for highways, bridges, transit, railroads, bicycle/pedestrian facilities and other transportation concerns. Four primary documents are developed and approved by the MPO: the region's Long Range Transportation Plan (LRTP), Transportation Improvement Program (TIP), Public Participation Plan (PPP) and Unified Planning Work Program (UPWP). In executing its work, the MPO strives to provide a balanced transportation system for the maximum benefit of people, businesses, and communities.

**Purpose of this Report**

The current federal transportation law, the Infrastructure Investment and Jobs Act (IIJA), also known as the "Bipartisan Infrastructure Law," requires MPOs to publish an Annual List of Obligated Projects, reporting on the federal funding obligations for projects during the federal fiscal year from October 1 to September 30. The federal regulation states, in plain language, that:

*"An annual listing of projects, including investments in pedestrian walkways and bicycle transportation facilities, for which federal funds have been obligated in the preceding program year shall be published or otherwise made available through the cooperative effort of the state, public transportation operator(s), and metropolitan planning organization. The listing shall be consistent with the categories identified in the TIP."*

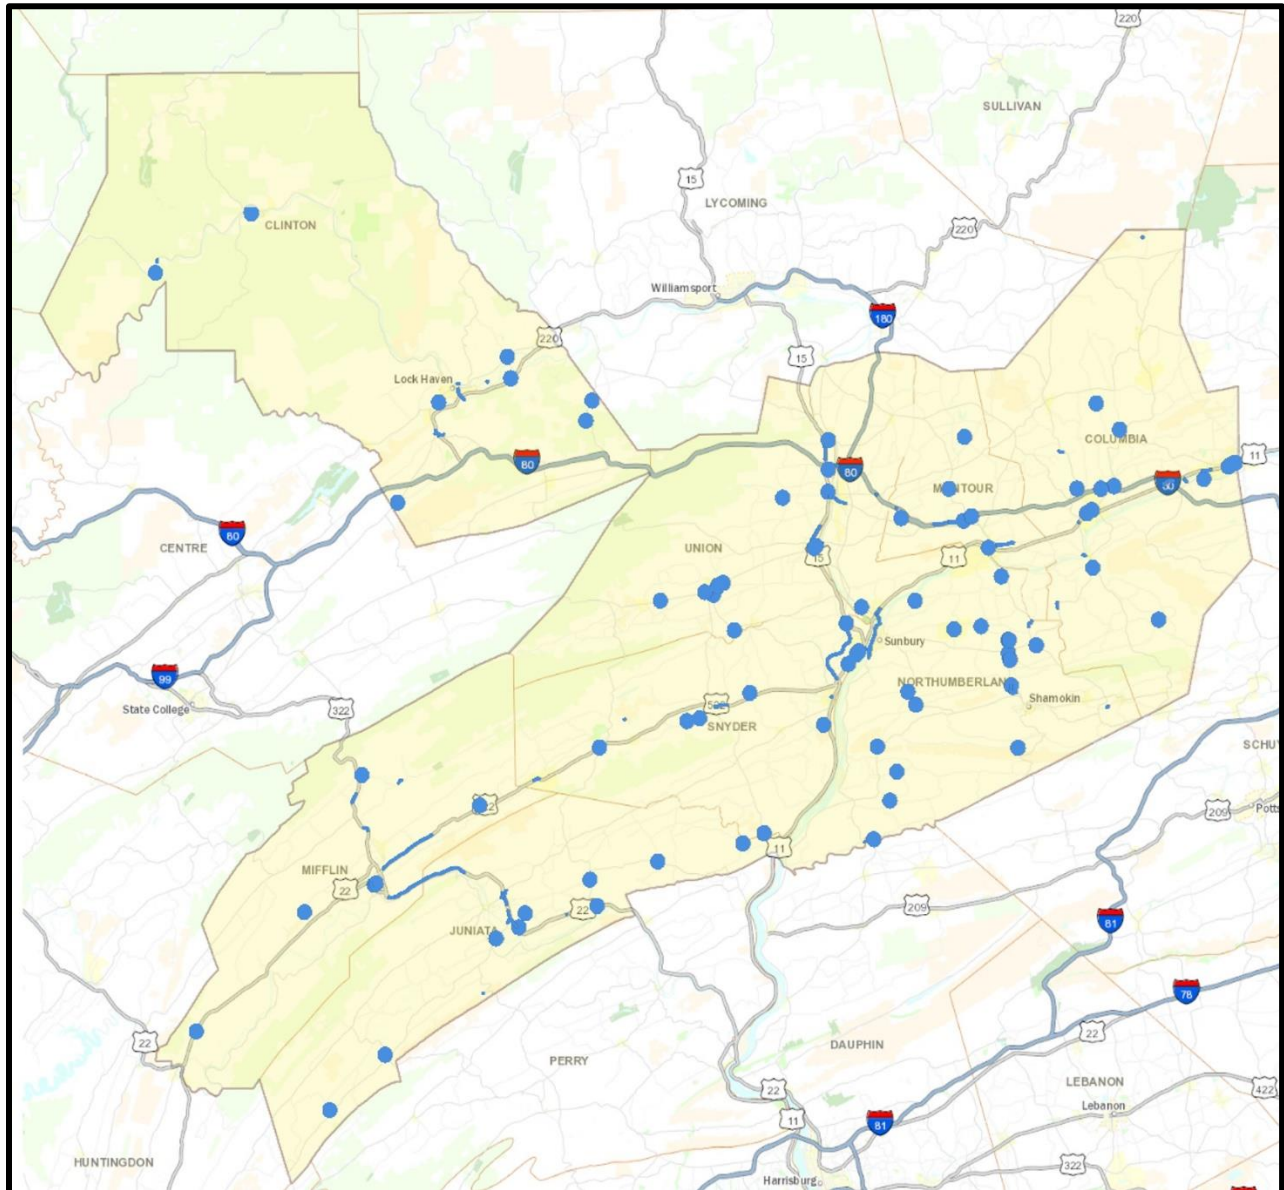

The Federal Highway Administration defines obligation as the "federal government's legal commitment (promise) to pay or reimburse states or other entities for the federal share of a project's eligible costs." Thus, an obligated project is one that has been approved by the federal government for reimbursement, though not necessarily reimbursed yet. This reimbursement can be for projects that have been initiated in previous years or will not be completed until future years, and the final cost of a project may be different from the amount obligated. Funding can also be "de-obligated" from projects in response to lower-than-expected costs, project cancellation, or other factors, and these released resources are often redirected to other projects.

This report responds to the directive set forth in federal statute. It lists all federally funded transportation projects in the SEDA-COG MPO region that were obligated during Federal Fiscal Year 2023 (October 1, 2022 to September 30, 2023).

During FFY 2023, the SEDA-COG MPO saw a total of 100 obligations worth \$105,259,098.

### **Project Locations:**

The below map shows the locations of mappable projects that were obligated during FFY 2023.

### **Table Definitions:**

**County** is the county in which the project is located.

**Federal Funds Remaining** is the amount of federal funding remaining and available for subsequent years.

**MPMS** stands for Multi-modal Project Management System number. It is an inventory of Highway/Bridge and Rail/Freight projects that contains information about project phase milestones, funding, and status. Additional project information can be found at PennDOT's [One Map](#) interactive online map and searching by the MPMS # as the Asset ID. This interactive map also provides project search by region, route, address or intersection options and gives project details such as let date, estimated completion date, etc.

**Obligated** is the amount of obligated federal funds for the FFY of this report.

**Phase** is the Project Phase: Preliminary Engineering (PE); Final Design (FD); Utilities (UTL); Right of Way (ROW); Construction (CON); Study.

**Prog. Total** is the amount of federal funds programmed for the project.

### **Abbreviations Used in Project Titles and Descriptions:**

BOF - Bridge Off-System (Bridge off of the federal aid system)

Br – Bridge

Co or Cnty - County

Cr or Crk – Creek

CSVT – Central Susquehanna Valley Transportation Project

DB – Design/Build

DF – Department Force

EB – East Bound

HFST – High Friction Surface Treatment

HSIP – Highway Safety Improvement Program

I – Interstate Route Number

ITS – Intelligent Transportation Systems

NS – Norfolk Southern Railroad

NSHR – North Shore Railroad

Ov - Over

ROP – Regional Operations Plan

RR – Railroad

RRX – Railroad Crossing

SR – State Route

SVRR – Shamokin Valley Railroad

T – Township Route Number

TASA or TAP – Transportation Alternatives Set-Aside Program

Trib – Tributary

VRUS – Vulnerable Road Users
